2. 2012 International Residential Building Code
3. 1999 SSTD 10-99, Standard for Hurricane Resistant Residential Construction
4. 2014 NFPA 70, National Electrical Code
5. 2012 International Plumbing Code
6. 2012 International Mechanical Code
7. 2012 International Fire Code
8. 2012 International Fuel Gas Code
9. 2009 International Energy Conservation Code
10. 2012 International Existing Building Code
11. NFPA 101 Life Safety Code, 2012 Edition
12. GA Fire Marshal's Rules & Regulations
13. City of St. Marys Code of Ordinances, Chapter 54, "Flood Damage Prevention" (latest edition)
14. 2010 ADA Standards for Accessible Design
15. GA State Supplements and Amendments to the above codes

Design Requirements:

1. All structures must be designed and built to withstand 120 MPH (3 second gust) winds, Exposure Category "B", minimum.
2. Finished floor elevation of the structure must be a minimum of 16-inches above the high point of the adjacent road.
3. Maximum structure height limitation of the City of St. Marys, Code of Ordinances, Section 110, must be complied with.
4. Marsh line, for property located on a salt water marsh, must be established by GA DNR within a year of starting any construction on the property.
5. No construction can take place within 25 feet of the normal water's edge of a lake, pond, or other body of water considered to be state waters. Building and Public Works official will determine wresting buffer boundaries when applicable.
6. All structures for human habitation, located in a flood zone, must be constructed a minimum of 24" above the base flood elevation in which it is located. A "Pre-Elevation Certificate" will be required prior to the issuance of a building permit and a "Post Elevation Certificate" will be required prior to the issuance of the Certificate of Occupancy. Both are required to be prepared by a registered professional Georgia surveyor.
7. Owner/Contractor may be required to submit a lot inspection report prepared by a registered professional Georgia surveyor prior to the construction of any footers, piers, slab, foundation or floor.

ARTICLE III. - SOIL EROSION, SEDIMENTATION AND POLLUTION CONTROL

FOOTNOTE(S):

--- (4) ---

Editor's note— Ord. of Apr. 4, 2011, amended art. III in its entirety to read as herein set out. Former art. III, §§ 46-92—46-99.2, was entitled "Soil Erosion and Sedimentation Control" and derived from: Ordinances of Dec. 11, 1989; Sept. 11, 1995; Jan. 8, 2001; and June 14, 2004, §§ 1, 2.

State Law reference— Erosion and Sedimentation Act of 1975, O.C.G.A. § 12-7-1 et seq.

Sec. 46-92. - Title.

This article will be known as "City of St. Marys Soil Erosion, Sedimentation and Pollution Control Ordinance."

(Ord. of 4-4-11)

Sec. 46-93. - Definitions.

The following definitions shall apply in the interpretation and enforcement of this article, unless otherwise specifically stated:

Best management practices (BMPs): These include sound conservation and engineering practices to prevent and minimize erosion and resultant sedimentation, which are consistent with, and no less stringent than, those practices contained in the "Manual for Erosion and Sediment Control in Georgia" published by the commission as of January 1 of the year in which the land-disturbing activity was permitted.

Board: The board of natural resources.

Buffer: The area of land immediately adjacent to the banks of state waters in its natural state of vegetation, which facilitates the protection of water quality and aquatic habitat.

Certified personnel: A person who has successfully completed the appropriate certification course approved by the Georgia Soil and Water Conservation Commission.

Commission: The Georgia Soil and Water Conservation Commission (GSWCC).

CPESC: Certified professional in erosion and sediment control with current certification by Certified Profession in Erosion and Sediment Control Inc., a corporation registered in North Carolina, which is also referred to as CPESC or CPESC, Inc.

Sec. 46-94. - Exemptions.

This article shall apply to any land-disturbing activity undertaken by any person on any land except for the following:

- (1) Surface mining, as the same is defined in O.C.G.A. § 12-4-72, the "Georgia Surface Mining Act of 1968";
- (2) Granite quarrying and land clearing for such quarrying;
- (3) Such minor land-disturbing activities as home gardens and individual home landscaping, repairs, maintenance work, fences, and other related activities which result in minor soil erosion;
- (4) The construction of single-family residences, when such construction disturbs less than one acre and is not a part of a larger common plan of development or sale with a planned disturbance of equal to or greater than one acre and not otherwise exempted under this subsection; provided, however, that construction of any such residence shall conform to the minimum requirements as set forth in O.C.G.A. § 12-7-6 and this subsection. For single-family residence construction covered by the provisions of this subsection, there shall be a buffer zone between the residence and any state waters classified as trout streams pursuant to Article 2 of Chapter 5 of the Georgia Water Quality Control Act. In any such buffer zone, no land-disturbing activity shall be constructed between the residence and the point where vegetation has been wrested by normal stream flow or wave action from the banks of the trout waters. For primary trout waters, the buffer zone shall be at least 50 horizontal feet, and no variance to a smaller buffer shall be granted. For secondary trout waters, the buffer zone shall be at least 50 horizontal feet, but the director may grant variances to no less than 25 feet. Regardless of whether a trout stream is primary or secondary, for first order trout waters, which are streams into which no other streams flow except for springs, the buffer shall be at least 25 horizontal feet, and no variance to a smaller buffer shall be granted. The minimum requirements of O.C.G.A. § 12-7-6(b) and the buffer zones provided by this subsection shall be enforced by the local issuing authority;
- (5) Agricultural operations as defined in O.C.G.A. § 1-3-3, "definitions", to include raising, harvesting or storing of products of the field or orchard; feeding, breeding or managing livestock or poultry; producing or storing feed for use in the production of livestock, including but not limited to, cattle, calves, swine, hogs, goats, sheep, and rabbits or for use in the production of poultry, including but not limited to, chickens, hens and turkeys; producing plants, trees, fowl, or animals; the production of aqua culture, horticultural, dairy, livestock, poultry, eggs and apiarian products; farm buildings and farm ponds;
- (6) Forestry land management practices, including harvesting; provided, however, that when such exempt forestry practices cause or result in land-disturbing or other activities otherwise prohibited in a buffer, as established in subsections 46-95(c)(15) and (c)(16) of this article, no other land-

Fee Schedule for Building/Electrical/Mechanical/Plumbing/Low

Voltage/Demolition Permits

Adopted in Legal Assembly September 16, 2013

Building Permit – Permit fee is ½ of 1% of the “actual contract cost” of the general construction work including the trades, minimum \$50. You will be required to submit a copy of the contract with the Building Permit Application. \$50 administrative fee in addition to permit fee. **NOTE: Homeowner’s applying for a new construction building permit the fees will be based on material and labor costs for the general construction and all trades.**

Electrical Permit - Permit fee is 2% of the “actual contract cost” of the electrical work with a minimum of \$50. You will be required to submit a copy of the contract with the Electrical Permit Application. \$50 administrative fee in addition to permit fee.

Low Voltage Permit – Permit fee is 2% of the “actual contract cost” of the low voltage work with a minimum of \$50. You will be required to submit a copy of the contract with the Low Voltage Permit Application. \$50 administrative fee in addition to permit fee.

Mechanical Permit – Permit fee is 2% of the “actual contact cost” of the mechanical work with a minimum of \$50. You will be required to submit a copy of the contract with the Mechanical Permit Application. \$50 administrative fee in addition to permit fee.

Plumbing Permit – Permit fee is 2% of the “actual contract cost” of the plumbing work with a minimum of \$50. You will be required to submit a copy of the contract with the Plumbing Permit Application. \$50 administrative fee in addition to permit fee.

Note: Fee for replacing an existing hot water heater will be an administrative fee of \$50 only.

Demolition Permit – Permit fee \$100.00 regardless of structure size or materials

Re-Establishing Disconnected Electrical Service - \$35.00 permit fee, no additional administrative fee

Re-Inspection Fee - \$100.00 per re-inspection. **Fee to be paid prior to re-inspection.**

AID TO CONSTRUCTION FEE

Revised June 17, 2014

Section 98-57 City Ordinance for Construction Fee

- (a) In order to connect to the City of St. Marys water and/or wastewater utility system, all residential, commercial, institutional, industrial or any other structure requiring water and/or wastewater utility services, shall pay an aid-to-construction fee in addition to any fees required by ordinance prior to connecting to the city water and/or wastewater system.
- (b) The aid-to-construction fee will be based upon improvements needed for the water or wastewater infrastructure and construction or expansion of the water or wastewater treatment facilities serving the city. The city currently has two wastewater treatment facilities. The current wastewater treatment plants are known as the Point Peter Plant and the Scrubby Bluff Plant. Each aid-to-construction fee will be based on the expansion or construction needed for any and all improvements or expansions of the water and wastewater plants serving the city. **These fees will only be used for the improvement or expansion of the water and wastewater treatment facilities located within the city.**
- (c) The aid-to-construction fee for commercial subdivisions and/or structures, and residential subdivisions and/or structures shall be calculated based on the estimated average daily water consumption of each type of structure or unit as outlined in Table 98-57.1, multiplied by the estimated construction cost per gallon, as listed in the fee ordinance, then multiplied by the number of units. **The estimated aid-to-construction cost per gallon shall increase May 1 of each succeeding year, beginning in May 2010, at a rate of five percent.** If the proposed use is not included in Table 98-57.1, then the daily average water consumption rate shall be determined by the City Manager and/or their designee.

Owner/Developer of any structure shall have the option of providing an Earthcraft or LEED (Leadership in Energy and Environmental Design) certified facility that may modify the daily average water consumption rate as listed in Table 98-57.1. The aid-to-construction fee shall be the lower of the figures derived from using either figures from 98-57.1 or the LEED or Earthcraft certified figures. The City will only accept certified LEED or Earthcraft figures from a current Georgia registered professional engineer or current Georgia registered architect.

For example: for a 2011 development with 50 units of one bedroom apartments the fee would be GPD (Table 98-57.1) X Cost Per Gallon X Unit Total = Aid-To-Construction Fee or $150 \times \$12.58 \times 50 = \$94,350.00$ would be the aid-to-construction fee.

- (d) Aid-to-construction fees for commercial or residential projects that do not require subdivision review and approval shall be paid with submittal of a request for a building permit. Aid-to-construction fees for commercial or residential subdivisions shall be paid prior to the receipt of a building permit for any structure.

- (e) Additions and renovations made to existing structures shall pay an aid-to-construction fee based on the number of fixtures to be added. The fee shall be calculated based on 10 units per fixture and then multiplied by the current estimated construction cost per gallon.

Earthcraft and LEED certification may also be used for existing structures. The relocation of one or more fixtures within the same existing building envelope will not require an aid-to-construction fee.

The undersigned hereby applies for special consideration as a property owner desiring to construct or alter his/her personal residence. In making this request for a "homeowner" permit, the undersigned states the following to be true:

- Property described in permit application is **currently owned by the applicant.**
- **Applicant resides/will reside in completed structure and does not plan to offer same for sale or rent for a period of two (2) years AFTER receiving a Certificate of Occupancy (applicable to New Construction only) per O.C.G.A. Section 43-41-17(C)(2)(h)**
- Applicant agrees (if applicable) accessory structure will be for its permitted use and not for a business or residence.
- Applicant will serve as the general contractor and accept inherent responsibilities for the work authorized by the issued permit.
- Applicant agrees to **hire State of Georgia "licensed contractors"** for all work that is further sub-contracted for electrical, mechanical, plumbing and low voltage and agrees permitting will be obtained prior to work beginning.
- Applicant agrees to perform work in accordance with all applicable codes and strictly adhere to the inspection schedule. Undersigned **acknowledges that inspections must be performed in an established sequence** and that work done in violation of the codes must be corrected or may be ordered removed.

Undersigned applicant acknowledges that he/she is aware that a permit issued under the provisions of the code **may be revoked for false statements or misrepresentation** as to the material fact in the application on which the permit was based.

Undersigned applicant further acknowledges that he/she is aware that any knowingly false statements made in the permit application will subject said applicant to possible prosecution. Georgia Criminal Code, Section 26-2402 (False Swearing) calls for a possible fine of not more than \$1,000.00 or imprisonment for not less than one (1) nor more than five (5) years, or both.
