

## Cremation Burials

There can be at least 2 burials in a standard size lot, however at least one has to be cremated. If both burials are cremations they must be buried in the middle of the lot and above and below each other in order to stay within the boundaries of the lot.

The burial hole is dug at least 2 feet.

Family can dig the hole or the City will dig hole at no charge.

### St. Marys City Ordinance Sec. 30-14. – Handling of cremations in Oak Grove Cemetery

- (a) Small lots currently available for cremations are located in certain designated areas of the cemetery and are available for the interment of the cremains of one individual.
- (b) One of the adult size plots located throughout the cemetery may be purchased at the regular price and used for the interment of no more than two remains, two cremains, or the remains of one individual and the cremains of another individual, with up to two markers on the plot.
- (c) An adult size lot for the purpose of holding a single inurnment bench will sell for the same price as an adult interment plot.
- (d) An inurnment bench, memorial, monument or headstone containing no more than two cremains will be allowed on a single adult size lot and will be used in place of any other memorial.
- (e) The inurnment bench shall be made of marble or granite and will be placed at center of the plot.
- (f) An inurnment bench for two cremains must fit within the required size limit of a regular Oak Grove monument.
- (g) Only a licensed monument company or its contractors may open and reseal an inurnment bench.
- (h) An inurnment bench may be placed only with the consent of the Oak Grove Cemetery Authority.
- (i) The City of St. Marys, by separate fee ordinance, does hereby adopt an administration fee for each placement of ashes in an inurnment bench.
