

To Whom It May Concern:

I think that opening the old Gilman mill site for businesses of at present unknown purposes and barge port facilities for their use to locate close to a national seashore, a nuclear sub base and a small downtown area hoping to draw tourists is one of the most irresponsible plans I have heard of in a long time. I also note that few if any of those involved in pushing approval for this plan are downtown residents of St. Marys or residents of St. Marys period.

To those in politics in Camden County, this is a miserable legacy to leave to those future residents of St. Marys who have to live with the unknown and possibly dangerous consequences of such a decision.

Sincerely,
Kay Westberry
