## City of St. Marys, Georgia

Rooted in History, Branching into the Future

St. Marys is situated at the southeast corner of Georgia. The main highway that brings you into town is Georgia Highway 40. Travel as far east as possible on Highway 40, then follow Osborne Road until you can go no further. Osborne Road will end in St. Marys at the St. Marys River.

At the waterfront there are several restaurants, a hotel as well as museums and various shops that cater to tourist as well as the local folk. Howard Gilman Memorial Waterfront Park is the jewel on the water. This park greets the walking guest with brick pathways that lead to swings facing the river. As you make your way to the middle of the park a fountain awaits your coins so that you can make your every wish come true. There is a play area for children as well as picnic tables for you to sit and have a sack lunch as you gaze out at the rippling tide of the river. Many couples have tied the knot at the gazebo in the park. The park has also been the center of attention for fishing tournaments, 4<sup>th</sup> of July celebrations, and the Rock Shrimp festival as well as many other events.

If by chance you are interested in a boat trip along the river, you may visit the Cumberland Island Museum and book a ferry trip to Cumberland Island. There is also Cumberland Sound Ferry Service that will pick you up at the waterfront and cruise you across the river to our sister city of Fernandina Beach, Florida. Of course you can just bring your own boat and launch it at the waterfront boat ramp. There is also a public boat ramp at Meeting Street and at Crooked River State Park.

Before St. Marys was established, it was the site of a large Timucuan Indian Village. In 1562 French Huguenot Jean Ribault was said to have sailed into the St. Marys River and named it "River May" for the date of the entrance. Later the name was changed to "Mary". The Santa Maria Mission was located in this area. Spanish occupation began in 1566 and ended in 1686 when the Spanish withdrew in face of the British intrusion from Carolina. In 1777, the Royal Government divided the area into two parishes. Camden County was one of the original eight counties, named for Charles Pratt, Earl of Camden. In 1787, the town of St. Marys was formed when Jacob Weed sold 1,620 acres to twenty founding fathers for \$48 a four-acre tract. This was the beginning of the town of St. Marys, said to be the second oldest town in the United States, St. Augustine

being the oldest. You can visit the St. Marys Convention and Visitors Bureau to learn more about the City. They also offer guided tours of the many Historic locations within the City.

St. Marys is only twenty-one miles from Jacksonville International Airport. So getting here is no problem. You can come by air, boat, rail or car. Once you get here you will be pleasantly surprised by the local charm and pristine beauty of our natural surroundings.

**PUBLIC NOTICE**

The City Council will vote on the proposed City Budget for fiscal year 2010 at the council meeting. It will be held in the Council Chambers at City Hall on Monday, June 8, 2009 at 6:00 pm.

# City of St. Marys Organizational Chart

## **Introduction to the FY2010 Budget**

The Fiscal year 2010 Budget has been in preparation since January 2009. The Finance department works diligently to prepare reports to help Department heads forecast their spending for the new budget year.

Our budget process is very intense. Department heads meet with the Finance Director and City Manager several times before the final figures is presented to Council and Mayor. The City also holds budget work shops and invites the public to attend and comment during the budget process. The required legal advertising is placed in the official organ of the City. The advertisement includes hearing dates, various funds projected budgets, location of the budget for detailed viewing and adoption date.

The General fund revenues for FY2010 are budgeted at \$10,274,828. Of the revenues 33% are received from Property taxes. Another large source of revenue is from the Sales and Use taxes. Other revenue sources include Franchise taxes, Licenses and permits, Regulatory fees, Fines and forfeitures and miscellaneous revenues. Our projections were calculated very carefully in order to achieve the most accurate figures based on the current economic conditions.

There are twenty one departments that make up the General Fund. The expenditures for each department are determined by the Department Head. The Department Head must calculate their projections for salaries, purchased or contracted services, supplies, and debt service.

Of the General fund expenditures 62% is paid for employee wages and benefits. Due to the rising cost of insurance the City had to increase the employee's share of premiums for health and dental. During the previous fiscal year several employees were cut to part-time and sixteen vacant positions were not filled in an effort to save costs. Salaries were also frozen for a period of one year and a hiring freeze was in effect for seven months.

The Water and Sewer Revenues for FY2010 are \$24,805,400. Of the revenues 65% are received from State Government grants. Charges for City services make up another 23% of the revenues. Other revenue sources are from interest revenues, lease revenues and sale of surplus property.

The Water and Sewer expenditures will pay for salaries, maintenance and repairs and supplies. Capital expenditures include the replacement of a lift station, Pt. Peter Waste Water Treatment Plant upgrades, sewer extension along spur 40, and unpredicted machinery purchases. The Sewer department has also budgeted for the purchase of a dump truck and a rough terrain forklift.

Debt service expenditures include the Bond payment and GEFA Loan payment. Equipment loans are also expensed in debt service.

Solid Waste revenues are \$1,292,409 for FY2010. These revenues are received from the billing of residential and commercial refuse collection. Other sources of revenue for the Solid Waste Fund include interest income, late fees and penalties charged to customers and other charges for services.

Solid Waste expenditures pay for salaries, landfill fees, collection fees and various supplies. There is no capital expenditures budgeted for Solid Waste for FY2010.

St. Marys Convention and Visitors Bureau receive revenues for Hotel tax, retail sales, tours and contributions. The revenues total \$182,745 for FY2010. The expenses for the Bureau consist of employee wages, advertising, utilities and supplies.

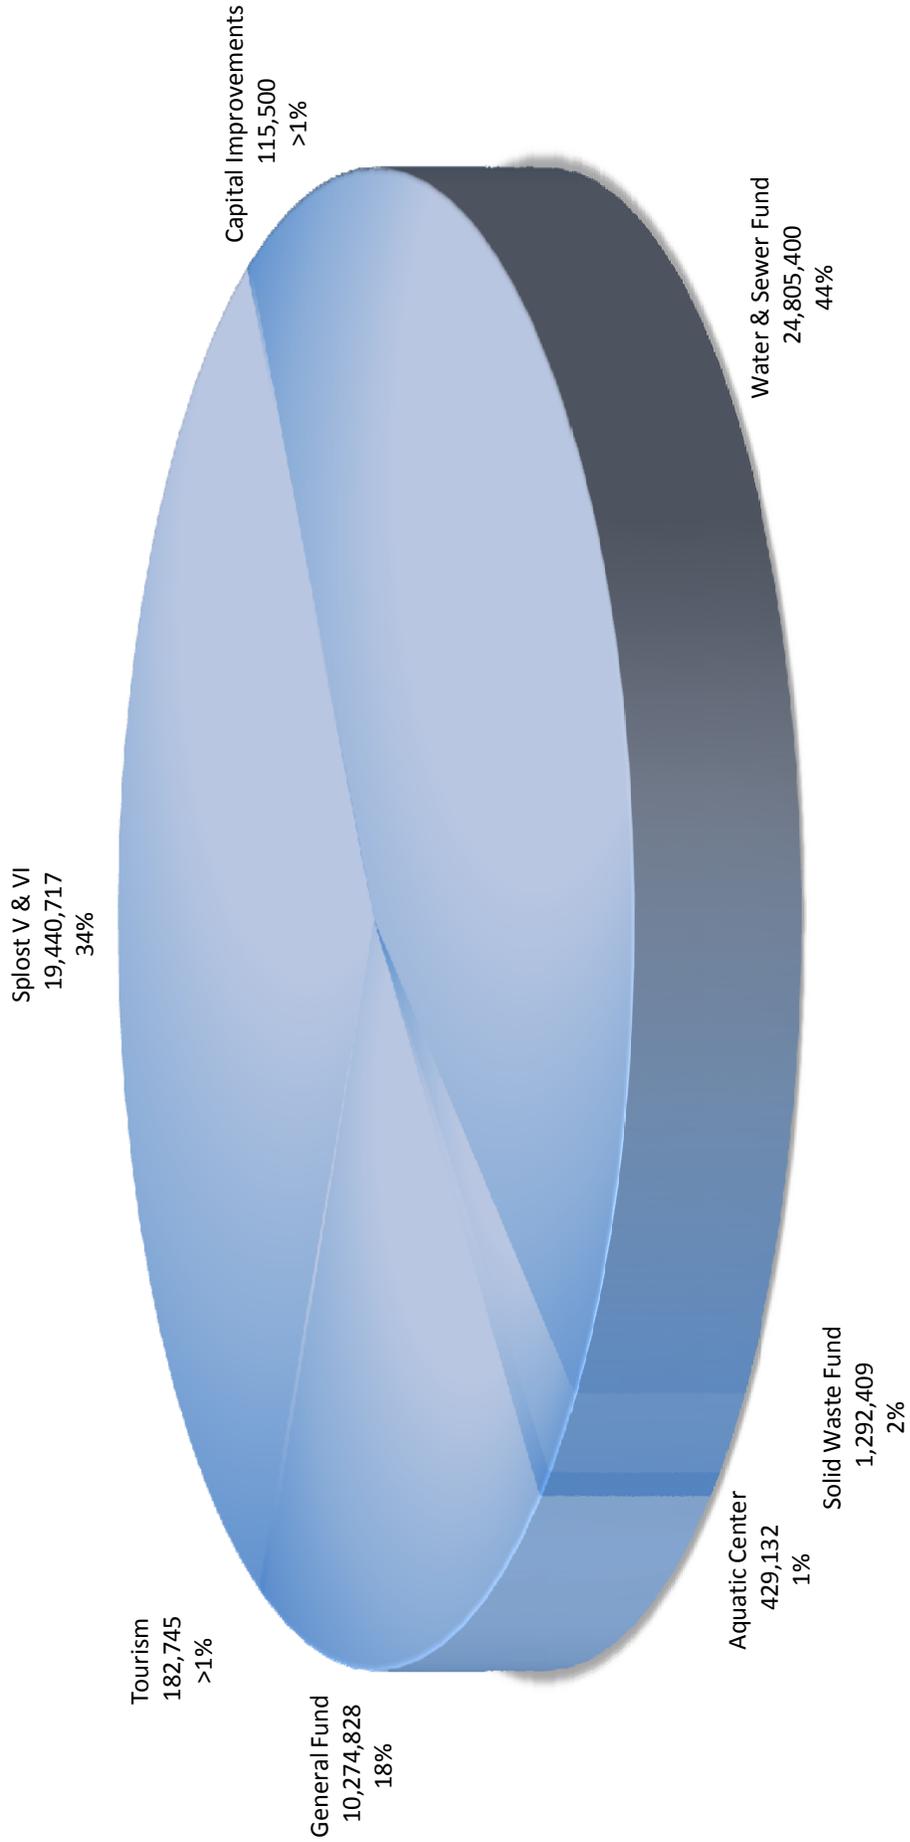

The Capital Improvements Fund revenues and expenditures are \$115,500 for costs associated with the Theatre Group.

SPLOST V and SPLOST VI total budget is \$19,440,717. The revenues are obtained through the collection of a special sales tax over a five year period. Expenditures for FY2010 and future years are for drainage, paving, sidewalks, traffic signalization and Library expansion.

The Aquatic Center revenues are obtained from daily admission, group sales, birthday parties, swim lessons, retail sales and concession. The total revenues expected for FY2010 are \$429,132. Expenditures for the Aquatic Center are wages, utilities, stock for concession and retail store, facility maintenance and repair and equipment upgrades to the Kiddie pool slide.

The Budget was passed at the June 8, 2009 Council meeting. The FY2010 budget will go into effect on July 1, 2009.

**FY2010 Budget Composition**  
**\$56,540,731**

# General Fund Expenditure Comparison

# Legislative Department

# Legislative Department

## Mission Statement

The City Clerk's office strives to provide courteous and professional service to elected officials, city staff and, most importantly, the public. We protect and preserve official records and disseminate information concerning policy and legislative issues.

## Overview

The Legislative department is the governing body of the City. The city clerk, executive administrative assistant and six council members, headed by the mayor make up the Legislative department. The city clerk is responsible for council meeting facilitation, senior homestead exemptions, alcohol licenses, and tax, cemetery and bankruptcy administration. The city clerk serves as secretary to the council, safeguards all records and documents, implements codes and regulations, and election proceedings.

Serving as City Clerk, provides a new challenge everyday and a great way to serve the community.

## Accomplishments

Through the combined efforts of the City Clerk, Planning Director and Building Director the outsourced scanning project is complete on all backlogged documents from previous years, and two new user seats were added to the scanning system.

Through the combined efforts of the City Clerk and Court Clerk the audio and video sound system were replaced with a new digital system, which is used in all departments.

Council has amended the Ethics Ordinance and re-adopted Georgia Municipal Association's "Model Code of Ethics for Georgia City Officials." The amended ordinance and resolution were submitted to GMA for re-certification review.

## Goals

The goals for the Legislative department are to continue to work on projects that were implemented in previous years and continue to serve the citizens courteously and

professionally. Ordinances will continue to be updated quarterly through an ongoing project with Municipal Code.

Scanning will continue to store City records that must remain in our retention files. This project will hopefully alleviate the storage issues we have had in the past.

Another goal is to continue to work on Homestead exemptions. Citizens may file for homestead exemption throughout the year. The legal advertisements in the local newspaper are reviewed for obituaries and estate probates that change/cancel the status of an exemption. Legislation is being forwarded to the Georgia House of Representatives to release the cap on Senior Homesteader's net income from \$25,000 to zero for the January 2011 General Session.

The current tax digest is verified yearly for property sales, ownership and increase in property values. The 2009 tax liens will be placed on properties in March 2010. Liens are cancelled monthly when delinquent accounts are satisfied.

Oak Grove Cemetery lots are sold through the Clerk's office. Through the combined efforts of the City Clerk and Building Inspector, the Cemetery Association and City's cemetery files will continue to be cataloged to capture lot sales and ownership.

# Executive Department

# Executive Department

## Overview

The Executive department has the overall responsibility for monitoring the daily operations of all City activities. The City Manager and Executive Assistant make up the Executive Department.

The City Manager is the chief administrative officer of the City. The City Manager is responsible to the Mayor and Council for proper administration of all affairs of the City.

## Goals

Some of the major projects currently underway are as follows:

- Pre-trial and Diversion Program
- Incode Financial Software Upgrade
- Streamline prior billing process
- Upgrading I.T. infrastructure in City Hall
- Provide professional development and training
- Attain a state Certified Police Department
- Build a state of the art weapons training facility
- Ensure the Fire Department exceeds all state required response times
- Completion of the Point Peter Waste Water Treatment upgrade (.8 MGD to 4 MGD)
- Upgrade City infrastructure, (water, sewer, roads and ditches), to include traffic signals
- Improve services for our senior population by renovating a new Senior Center Facility
- Expand library services by renovating the library
- Ensure the Planning Director becomes a Certified Building Official
- Beautify and clean the closed Pauper Cemetery
- Review out of the box strategies to entice new Tourism and Economic Development to the City.

These projects will only move forward and excel with the collaboration of Elected officials, City personnel, and citizens working together as partners for the benefit of the City of St. Marys.

# Finance Department

# Finance Department

## Overview

The Finance department is responsible for maintaining the proper accounting methods and financial integrity of the City. The Finance department consists of various functions that are vital to the fluent operation of all City departments. The department is headed by the Finance Director.

Employees in the Finance department are budgeted in General, Water, Sewer, and Solid Waste Funds.

Customer Service Representatives (CSR's) are at the forefront of City Hall. They greet walk-in customers, answer questions via phone or dispatch to proper department, take new applications for Water/Sewer customers, Disconnection requests, handle all money paid to the City and receipt it in appropriate accounts. They are also responsible for balancing the registers daily and verifying reports for accuracy.

The Utility Billing Clerk is the direct supervisor of the CSR's and is responsible for overseeing the daily operation of the Customer Service Area. The clerk is also responsible for preparing and billing water, sewer, and solid waste customers.

There are four meter readers and a Lead Meter Reader. They are responsible for reading and updating all customer usage for billing. They also respond to repair needs, cut-offs, turn-on, temporary service requests, tamper investigations and customer inquiries.

The Purchasing Agent works directly with department inventory personnel to ensure the timely order and delivery of materials and items. The Purchasing Agent ensures the proper approval has been obtained and that the budget has not been exceeded. Monthly encumbrance reports are distributed to department heads by the Purchasing Agent.

Accounts Payable enters invoices and pays vendors for services or materials after verifying with departments that items have been received. Accounts payable maintains contact with departments and vendors to ensure all invoices are paid by due dates and that any terms are used in order to reduce cost.

The Junior Accountant reconciles City bank statements, updates fixed assets, reports accidents to our liability insurance and is backup for property tax questions and billing. The Junior Accountant also maintains SPLOST records and Grant files.

The Bookkeeper is responsible for payroll processing, auditing of daily activity from incoming receipts, budget preparation, Reporting sales & use tax for Aquatic and Tourism. The Bookkeeper also handles the end of year processing of W-2's and 1099's.

The Staff Accountant is responsible for billing property taxes, processing corrections of taxes from county, reporting 941 wage reports, State unemployment reporting, end of month entries and preparing deposit from daily receipts.

The Assistant Finance Director assists in the day to day operation of the Finance Department, recording and processing journal entries to the General Ledger, Recording budget ordinance requests and changes, and helping with property tax questions.

### **Accomplishments**

The Finance department successfully coordinated a surplus sale and auctioned off many vehicles and equipment that were no longer useful to the City. GovDeals, another surplus venue was used for the first time to auction several vehicles.

The department has streamlined our billing process by purchasing a mail handling system. This system makes the entire billing process run much smoother. The system is used for Utility billing as well as Property tax bills.

The implementation of the new financial software, Incode, has begun and we are currently running Purchasing, Accounts Payable and General Ledger on the new program. Other functions will be completed before the beginning of the FY10 budget.

Three employees earned their Certified Local Government Finance Officer Program – Level I certificates. The Finance Director completed the Level II certification. Other employees are beginning their certification process.

### **Goals**

The Finance department hopes to have all finance employees certified in the Local Government Finance Officer Program. The department also encourages continuing education for their employees. Tuition reimbursement is available in the FY10 budget for employees to further their education.

The department is submitting the budget to the Government Finance Officers Association for the Distinguished Budget Presentation Awards Program. This is the first

time the budget book has been submitted. The Awards program has been promoting the preparation of high quality budget documents since 1984.

Another goal for the Finance department is to be totally converted over to the new financial software and have it running smoothly during the next fiscal year.

The finance department is currently running out of room for storage of files. The department hopes to acquire an area devoted to storage of sensitive payroll and financial files.

# Legal Department

# Legal Department

## **Mission Statement**

To provide, through the direction of the Mayor and City Council of the City of St. Marys, legal service, guidance, and representation for the City by serving the functions of advocate and adviser.

## **Overview**

The Legal Department does not provide legal advice or services to citizens of St. Marys or the general public. The Legal Department is limited to providing legal advice, counsel, and representation to the Mayor, City Council members, City officials and departments in all matters regarding the City of St. Marys, Georgia. However, the Legal Department continually works to ensure the citizens' best interests, safety, and quality of life is a top priority.

The City Attorney traditionally serves two different functions for the City: adviser and advocate

As adviser, the City Attorney reviews all contracts, ordinances, and resolutions, acts in an advisory capacity to departments, boards and committees, and serves as parliamentarian during City Council Meetings.

As advocate, the City Attorney serves as the solicitor for the Municipal Court and is a litigator in civil matters.

## **Accomplishments**

The Legal Department created and manages the Pretrial Intervention and Diversion Program. There are currently six participants in the program. Eight participants have completed the program since inception in February 2008.

# Information Technology Department

## **Information Technology**

### **Overview**

The Information Technology was added to the City in 2007. Currently the department has two full time employees that provide technical service to various departments within the City.

The Information Technology department is responsible for all workstations and servers within the City. IT is also responsible for wireless phone service and maintains the City's website.

### **Accomplishments & Goals**

The Information Technology department is in the process of upgrading the infrastructure in City Hall. With the help of Cisco and other vendors, we are working on creating a strong and stable network able to carry us well into the 21<sup>st</sup> Century. We are also in the process of finalizing the Enterprise Agreement with Microsoft. By working with Cisco and Microsoft, we will be able to bring new technology and ideas to better serve you.

### List of equipment currently in use

Laptops	46
Desktops	96
Printers	85
Servers	17
Networks	6
Phones	27
Blackberry Devices	7
Aircards	4

### Projects completed in FY2009

Department	Projects Completed
Legislative	Records Scanning, Video Recording System, Council Video on Website
Fire	New network, new facility setup, command trailer communications for TS Faye and Events
Police	New server, office expansion
Public Works	Camera Truck maintenance, office expansion, new facility setup
Building/Planning	Records Scanning, Wide-Format Scanning, Video Recording System
Tourism	Building Re-wiring
DDA	Speaker System, SCORE telephone, Georgia Forestry Incident Command Post Communications Setup
Finance	2009 Budget Book, Utility Billing & Bulk Mailing, Meter Reading Equipment setup
Aquatic Center	New computer setup, Security Break-in (intruder was deterred by camera), New website
Municipal Court	Video Recording System
Human Resources	Assist in potential web-based application system
Information Technology	Assisted Finance with Surplus of 7000lbs of E-waste, Re-structure Communications cost (savings of approx. \$11,000 per year)

### Projects in Process

Finance	InCode Finance System
Information Technology	Cisco ASA IOS upgrades, SSL VPN Licensing & Setup, Virtual Servers, Virtual Desktop Interfaces, Intranet, Centralized Communications, Microsoft Enterprise Licensing
ALL	Internetwork Connection (Creating 1 network)

# Human Resource Department

# Human Resource Department

## Overview

The Human Resource Department supports all City departments and employees by providing services such as recruitment, selection, benefits administration, maintenance of personnel records, and policy direction on human resource management issues. The department also facilitates the City's workers' compensation, health & wellness and safety programs and coordinates internal training programs for City employees.

## Accomplishments

- Reduced Workers Compensation costs, with a savings of approximately \$40,000.
- Obtained a total of \$10,000 in grants for Health & Wellness Program

## Goals

Develop and implement innovative recruiting programs and tools to help attract a diverse applicant pool.

- Streamline and improve the effectiveness of our recruitment process
- Implement technology-based recruitment techniques
- Implement uniform hiring policy/procedures

Provide a competitive compensation and reward plan that will help in recruiting, hiring, and retaining talented employees.

- Maintain competitive pay scale
- Implement employee suggestion program
- Implement employee recognition program

Develop and improve performance evaluation systems

- Implement technology-based management/staff performance evaluation programs
- Implement 360° performance assessment and feedback instrument for City Manager and Department Heads

Continue development of Health & Wellness Program

- Monthly lunch & learn seminars
- Joint Health Fair with Camden County, City of Kingsland & Woodbine

Continue to evaluate the cost/benefit of current benefit offerings to ensure they are competitive

- Maintain or improve current level of services for medical, dental, life and short-term disability, while monitoring & controlling costs
- Maintain or improve current level of Workers Compensation benefits
- Reduce cost of General Liability insurance
- Maintain or improve current level of retirement plan

Improve effectiveness of the Human Resources Department to other departments

- Evaluate, enhance & improve current personnel policies
- Design and development of a Human Resources web page to provide employee access to personnel policies, procedural guidelines, forms and increased access to services.
- Implementation of computer-based time card system, which integrates with payroll system. This will be accomplished with the new financial software

Provide a professional development and training program, which will help department heads and staff acquire the knowledge needed to achieve performance excellence and maximize productivity.

- Have all department heads complete the Management Development Program by the Carl Vincent Institute of Government
- Continue providing Customer Service training to all employees
- Facilitate and provide training targeted specifically to critical areas such workplace safety, supervisory practices, conflict resolution, diversity & harassment prevention
- Continue cost-sharing of training with other area local government entities

# Municipal Court

# Municipal Court

## Mission Statement

To provide a forum for fair and efficient adjudication of all matters brought before the Municipal Court of St. Marys in such a manner that will protect the integrity of the judicial process. Through continuous improvement of services, accessibility and technology avail public trust and confidence in the court system.

## Overview

The Municipal Court of St. Marys is currently staffed by one Chief Judge and one Associate Judge. The Judge hears all cases involving City ordinance violations as well as state misdemeanor traffic violations and some misdemeanor criminal offenses committed within this jurisdiction.

Sessions for the Municipal court are held on the first and third Friday's of each month. Beginning at 9:00 a.m. on the first Friday and 11:00 a.m. on the third Friday, plea and arraignments are held. At that time the defendant is asked to enter a plea to the charges. If the defendant enters a not guilty plea at the arraignment they are then assigned a trial date, which is held the third Friday of the month beginning at 9:00 a.m. All court sessions are held in the council chamber located at 418 Osborne Street, St. Marys, Georgia.

The Municipal Court is responsible for accurately recording and processing all citations filed in this court. Through this process, the court routinely updates criminal and/or driving histories of defendants who have come before the court. For criminal justice purposes this is a very important step in our common goal to reflect accurate and up to date information. Dispositions are reported electronically to GCIC, and the Georgia DDS, which helps ensure information is available in a timely manner.

The issuance of failure to appear warrants, summons, continuances, subpoenas for final cases, upon request transfer paperwork to Superior Court, as well as responding to open record request are task that the clerical staff facilitate daily in the Municipal Court of St. Marys. Accountability of all monies collected and disbursed to different state, county and local agencies. Currently probation is handled through a private probation company, which provides monthly reports and timely payments of all monies due the Court.

## Accomplishments

The digital recording system was installed during the FY09 budget and will help our department save \$4,000 annually. The Court has successfully submitted all suspension notices and withdrawal of suspension notices to proper agencies electronically.

## Goals

The Municipal Court has several long term goals and objective recommendations that will benefit our department along with the City. We hope to cross train the court services technician so that information may be obtained from either the technician or the Court Clerk. Another goal is to obtain certification as a Municipal Court Clerk through continuing education. The Municipal Court would like to begin getting proposals from collection agencies for collection of old unpaid uniform traffic citations.

# Police Department

## **Mission Statement**

**It is the mission of the St. Marys Police Department to provide the highest level of service possible to our community through continuous quality improvements and exceptional ethical and professional standards.**

## **Motto**

Honor, Integrity, Respect and Courage

## **Overview**

The St. Marys Police Department is a full-service organization that operates 24 hours per day. The members of the Department are tasked with handling a wide variety of calls and situations. For this reason, our officers have to be able to function in capacities such as counselors, referees, protectors, parents, judges, and disciplinarians. The task of fielding a group of individuals that are all skilled in these diverse functions is difficult, and the availability of desirable applicants for vacant positions is limited. However, our commitment to the citizens of St. Marys is to locate, hire, train and field the absolute best officers we can in the various positions within the Department. We are also determined to provide continued excellence through on-going training programs, professional operational standards, and a commitment to ethics and discipline that will serve to protect our citizens as well as our employees, and to guarantee a high standard for the services we perform.

## **Organization**

The St. Marys Police Department is divided into three major Divisions which include Uniform Patrol, Criminal Investigations, and Administrative Services. The operations of these Divisions are managed by members of the Department's administrative staff, and the overall operation of the Department is managed by the Chief of Police, the Major, and the other members of the Departmental administration team.

## **Administration**

The Chief of Police is the Department Head within the Police Department, and he is responsible for overseeing the activities of the administrative functions of the Department. In addition to the Chief, the departmental administrative personnel include the Major, three Division Commanders who hold the rank of Lieutenant, the Standards and Training Sergeant, the City Marshal and the Administrative Assistant.

The Chief of Police is responsible for the Administration of the department, the creation, revision and mediation of policy and related issues, establishing accepted police procedures for the Department, resolution of citizen complaints, budgeting and purchasing, hiring new personnel, inter-departmental and inter-governmental cooperative efforts, and other similar tasks. As a Department Head, the Chief of Police reports to the City Manager.

The Major is responsible for the operational aspects of the Department. Some of the responsibilities that fall to the Major include conducting hiring and selection tests, managing promotional tests, assisting with developing the budget, appraising performance, maintaining employee files, rewarding and disciplining employees, approving leave, assuring adherence to departmental policies, addressing complaints and resolving problems and other tasks that relate to the day-to-day operations of the department. As second in command of the Police Department, the Major reports directly to the Chief of Police.

The Standards and Training Sergeant is responsible for presenting relevant training to all the members of the Police Department in order to meet the requirements of State Certification and to ensure that all certified personnel maintain their certifications as required by law. Some of the duties that this position is responsible for include developing lesson plans, coordinating with guest instructors, presenting internal training to satisfy the various State requirements, scheduling outside training, managing employee training records, arranging for travel and accommodations for employees during outside training, reviewing internal in-car videos for policy compliance, assisting with internal discipline processes and investigations, and proposing, reviewing and revising operational policies. The Standards and Training Sergeant reports to the Chief of Police.

In 2009, the City Marshal position was added to the Police Department's table of organization. The City Marshal is a certified law enforcement officer who is tasked with enforcing the codes and ordinances of the City of St. Marys. Some of the duties of the City Marshal include responding to issues relating to permitting, sign usage, noise and nuisance complaints, illegal dumping, property disputes, alcohol sales and consumption issues, case preparation and court testimony and other issues that relate to the City Ordinances. Additionally, as a certified police officer, the City Marshal is able to assist the Department in on-going incidents as they occur, and as this assistance is needed. The City Marshal reports to the Chief of Police.

The Police Department's Administrative Assistant does not have any supervisory responsibility and serves as the only office-clerical position in the Department. As such, this position provides clerical assistance to the Chief, the Major and the other Administrative positions in the Department. Some of the duties of the Administrative Assistant include maintaining departmental and personnel records in compliance with City requirements, answering Open Record Requests, general office duties to include typing, call taking, customer service, computer operations, data entry, report writing, purchasing and finance duties, filling in temporarily during the absence of other non-certified support staff members and supply and quartermaster duties. Even though this position assists the entire administrative staff, the Administrative Assistant reports to the Chief of Police.

## **Departmental Divisions**

Each Division of the Police Department is commanded by a Lieutenant, and each Lieutenant, as a member of the Department's Administration, reports to the Major. Some of the duties of the Division Commanders include scheduling, supervising personnel, maintaining discipline, inspecting personnel and equipment, evaluating subordinates, upholding and interpreting policy for subordinates, recommending budgetary purchases, responding to the changing needs of the community through analysis of crime trends and incident statistics, providing services to the community that are in-keeping with high standards of professionalism, customer service and cooperation, and other similar requirements.

### **Uniform Patrol Division (UPD)**

The Uniform Patrol Division makes up the largest element of the Police Department, and all new officers are hired into this Division. This Division is responsible for proactive efforts to prevent crime or preserve public safety, and for reactive efforts to

respond to calls for service. Currently, UPD is composed of four shifts each working on a 12-hour schedule.

With the trends that we have seen in the recent past it is acceptable to state that on average, our department hires one out of every 20 candidates who apply for a position. To send five candidates to the police academy, as we did in 2007, we have to screen over 100 applications. Once a new officer is hired, they are not effective until they have completed all the required training. For a new officer that we send to the academy, this process of training will take a minimum of six months. By hiring candidates that are already certified, we can cut the training length to three months. However, the availability of desirable applicants is limited, and we are in competition with Kingsland and the Camden County Sheriff's Office for the same people.

### **Criminal Investigations Division (CID)**

The Criminal Investigations Division is responsible for conducting follow-up investigations on criminal incidents that are initially reported to the Police Department primarily through the Uniform Patrol Division. Once an officer responds to a call and completes the report and the field investigation, the report is usually turned over to CID for follow-up investigation. The Departmental CID Division is currently staffed with one Lieutenant, three detectives and a Property and Evidence Technician. Currently, the detectives maintain a caseload of approximately 45 to 60 open cases at any given time.

Under the supervision of the CID Commander, some of the responsibilities that relate to the Detectives include serving the victims of crime, working a rotating on-call schedule, developing leads for cases and following them, identifying suspects, conducting interviews, interrogations, line-ups, and other actions that result in developing information, obtaining and executing search warrants and/or arrest warrants, case preparation, inter-departmental cooperative efforts, courtroom testimony and other similar tasks.

The Property and Evidence Technician manages the Departmental Property and Evidence function under the CID Commander's supervision. Some of the Property and Evidence Technician's responsibilities include receiving, cataloging, processing, storing and maintaining all items of property or evidence received by departmental personnel, controlling access to the restricted areas of the property and evidence rooms, performing audits and inventories in compliance with departmental policy requirements, testing suspected narcotic samples for proper identification, transporting items of

evidence to the State crime lab, testifying in court when necessary, disposing of property and evidence in accordance with legal requirements and other similar tasks.

### **Administrative Services Division (ASD)**

The Administrative Services Division is responsible for several critical facets of the operation of the Police Department. In addition to the tasks already defined for Division Commanders, the Administrative Services Division Commander manages the State Certification Process. This function requires very substantial organizational skills in order to maintain the files from year to year with the proper documentation to satisfy departmental policy as well as the Certification standards. As the manager of the Certification processes, the ASD Commander must also complete training as a Certification Manager and a Certification Assessor. There is also an expectation from the State that the agency will send the Certification Manager to other agencies in Georgia to serve as an Assessor during their recertification processes at least two times per year.

In addition to the Certification requirements, some of the ASD Commander's duties include supervising the Records and Customer Service personnel, ensuring records maintenance under existing retention requirements, maintaining the repairs of departmental facilities, seeking, applying for and managing grants for the department, coordinating the selection and testing processes for new-hire candidates, conducting background investigations for new-hire candidates, interacting with the Georgia P.O.S.T. Council for employee changes in status, forming, coordinating and managing promotional testing procedures for the department, and other similar tasks.

### **Goals**

As defined by the 2009 Goals and Objectives report that was submitted to the City Manager, the Police Department identified a total of ten goals in the categories of Personnel, Equipment, Vehicles and Facilities.

Personnel:

- 1 – Add 3 new certified positions to the Department
- 2 – Reclassify the part-time clerical position to full-time with benefits
- 3 – Implement an employee retirement plan
- 4 – Reclassify the Property and Evidence Custodian position to include Crime Scene Processing duties

Equipment:

1 - Purchase 2 narcotic/patrol K-9's and related equipment.

Vehicles:

1 – Purchase two vehicles for assignment to CID

2 – Purchase four vehicles for assignment to UPD

Facilities:

1 – Construct a multi-vehicle garage and impound lot facility

2 – Install security fence and improve the berm at the shooting range

3 – Replace Motherboard – Departmental Card Reader System

**2008 accomplishments**

The information that was used to complete this table was taken from the monthly reports that the Department completes for the City, and the monthly Uniform Crime Report that we generate for the FBI.

Total Number of Tickets	2638
Total Bond Amount:	\$339,710.95
Total Number of Accidents	498
Total Number of People Injured	101
Total Number of Fatalities	1
Murder	0
Rape	10
Armed Robbery	20
Aggravated Assault:	91
Burglary	96
Larceny-Theft (\$200 +)	181
Motor Vehicle Theft:	24
Juvenile Offenders	143
Total Cases Assigned	304
Total Cleared/Closed	201

Adult Arrests	712
Juvenile Arrests	14
Total Narcotics Arrests	212
In-Car Video Audits performed	35

### Estimated Population Ratios

Generally speaking, the average population ratio of officers to citizens for a city our size in this geographical region of the country according to the most recent statistics reported in 2007 by the FBI is 2.6 officers per 1,000 citizens. (See [http://www.fbi.gov/ucr/cius2007/data/table\\_71.html](http://www.fbi.gov/ucr/cius2007/data/table_71.html) - Group V Cities, South Atlantic region.) Before 2007, the average ratio was 2.4 officers per 1,000 citizens.

Year	Population	# of Officers	Population Ratio*
2007	18,000	43	2.39 :1,000
2008	20,000	36	1.8 : 1,000
2009	20,500	37	1.8 : 1,000

\* The population ratios shown are expressed as the number of officers per 1,000 citizens.

# St. Marys Fire Department

## St. Marys Fire Department

### ***Mission Statement***

*The St. Marys Fire Department's mission is to provide the citizens of this City with the best possible protection for their tax dollars, by ensuring the protection of life and property. This Mission Statement is the attitude of all paid and volunteer personnel who are a part of the St. Marys Fire Department. For we all stand as one, professionals, walking the walk and setting the example for the City of St. Marys and her citizens.*

### **Overview**

The St. Marys Fire Department accomplishes our mission by preventing fires and life safety hazards through education, engineering, and inspection. We suppress fires with a volunteer-based force that is supported by a paid personnel force. We respond to medical emergencies and provide aid and comfort. We train all department personnel and civilians to be prepared to serve the Community in times of crisis. And we are prepared to take a proactive role in the mitigation of Hazardous Materials, Confined Space, and Natural Disasters that the community may face.

The Fire Department currently has 21 full time Firefighters, 15 part time Firefighters, 20 Volunteer Firefighters, two Chief Officers, and one part time Staff Assistant to protect the City of St. Marys. At the beginning of FY 09 minimum staffing levels we determined to be three personnel (3/3/3) on each first out apparatus. Due to the economic situation within the City, minimum staffing was reduced to two personnel on first out apparatus at Station 9 and 7 and three personnel at Station 2 (3/2/2). Our goal is to return to the minimum level of three at each of the stations (3/3/3). This will allow us to comply with National Fire Protection Association Standards regarding staffing levels as well support our continued efforts in needed Insurance Services Office (ISO) points for personnel. The City of St. Marys currently has an ISO rating of a 4. Our goal is to lower the ISO rating to a 3, this is where the Citizens will see the greatest reduction in their homeowner's fire insurance premiums. Businesses would see the greater reduction by going to an ISO rating of a 2.

### **Fire Department Accomplishments**

Responded to 1,492 calls for service-

- 75 Structure Fires
- 1144 EMS/Rescue calls
- 97 Hazardous Conditions

## St. Marys Fire Department

- 38 Service Calls
- 52 Good Intent Calls
- 83 False Alarms
- 2 Weather/ Disaster

Average Response Time = 4.88 minutes

Volunteer Hours 3.419, if paid \$58,635.68 dollars.

Responded to properties valued at an estimated \$2,700,000 with a loss of \$349,300 dollars which equates to an average of a 13% loss to fires in structures we respond to.

Fire Prevention Activities:

- 130 Fire Inspections
- 123 Plan & Reviews
- 539 Fire Hydrant Inspections
- 89 Pre Fire Plans
- 711 Burn Permits issued
- 2500 Children seen as a part of a Fire Safety Lesson

We averaged 190 hours of training per Fire Fighter.

- 150 hours of Company Training
- 20 hours Driver Operator Training
- 20 hours on Hazardous Materials Training.

Attended 6 Hazardous Materials Drills on the Base.

Participated in three table tops through GMAG and GMA.

The Department participated in the development of the State Fire Response Plan & Mutual Aid Plan as a pilot organization and area. Chief Horton has also been appointed as the Area 5 GMAG Coordinator as well as the Chair of the Fire Committee of the All Hazard Council for Area 5.

The St. Marys Fire Department completed the Development and start up of the new St. Marys Fire Department Web Site: <http://www.stmarysfd.com>. This was done with the expertise of the Staff Assistant Mrs. Amber Shellenberger.

## St. Marys Fire Department

### **Budget Summary**

We have put together a budget bases on the Council's direction of no new positions. We have tried to maintain our current budget as close to possible. We are even reflecting a reduction in most areas. We have better ways to do our jobs, at even less the costs.

## Fire Department Expenditures

	Account #	Actual FY2008	Budget FY2009	Proposed FY2010

# Public Works Department

# Public Works

## Overview

The Public Works Department is responsible for the maintenance of all City streets, right-of-ways, public areas, buildings, equipment and vehicles. The department is comprised of several divisions; General Government Buildings & Plants, Highways & Streets, Parks, Engineering, Cemetery, and Special Facilities. The Public Works Department also supports other departments in their daily operations such as water and sewer administration. The day-to-day operations of the Public Works Department are supervised by the Public Works Director.

The General Government Buildings & Plants division has three crews: buildings, grounds and parks. The buildings' crew is responsible for the upkeep and renovation of all City buildings (including our Special Facilities which consists of Orange Hall and the Submarine Museum), plants and traffic signals. The grounds crew is responsible for maintaining the landscaping of all City buildings, medians, Oak Grove Cemetery, and some right-of-ways. The parks crew is responsible for maintaining the grounds of the waterfront park.

The Highways and Streets division has five crews; (2) ditch, (1) road, (1) general and (1) mowing. The ditch crews are responsible for the upkeep of the City's ditches and storm drains. The road crew is responsible for the upkeep of all city streets providing maintenance of curbing, gutters, pothole repairs, street sweeping, shoulder repairs, sidewalk repairs and installations. (These crews also assist with water and sewer repairs and installations). The general crew is responsible for the maintenance and installation of all City signage. The mowing crew is responsible for bush-hogging the City's right-of-ways as well as litter/debris removal.

The Engineering division has one crew. The engineering crew is responsible for providing technical support to all other City departments. It also provides technical assistance to the general public in residential, commercial and industrial capacities. It acts as a liaison with other municipal, state, and federal regulatory agencies such as the Department of Transportation, Environmental Protection Division, Department of Natural Resources, and the U.S. Army Corps of Engineers. Engineering responsibilities include water and wastewater design, storm drainage, City projects, plan review, construction inspection, site inspections, Public Works Policies enforcement, Erosion and Sedimentation Control enforcement.

Fleet Maintenance has one crew. The mechanics are responsible for the maintenance and repairs of the City's entire fleet. The Public Works fleet consists of 70 vehicles and pieces of heavy equipment, the Water department has 18 and the Sewer department has 51. The Police department's fleet consists of 54 vehicles which includes two dragoons and two motorcycles. The Fire department has 15 vehicles. Administration

has a fleet of 4 vehicles, Information Technology has 1, and Planning and Building has 4. The Senior Center has a large van and Tourism has an electric bus. The mechanics are also responsible for small equipment repairs such as push mowers, weed eaters, and chainsaws.

The Public Works department has on-call personnel that are available 24 hours a day 7 days a week to assist our customers with issues of signage, traffic signals, storm debris, road and drainage problems.

# Senior Citizens Center

# Senior Citizens Center

## Overview

The Senior Center is open to senior citizens 55 years of age or older who live in St. Marys and are self reliant. The Senior Center is located next to City Hall on Osborne Street and is open Monday through Friday from 9:00 a.m. to 4:00 p.m.

Transportation is available to seniors in the City. Each day seniors may enjoy a hot meal at a very low cost. There are also plenty of activities for them to enjoy. These activities include, Line Dancing, Yoga, Bingo, and many more. During the year the Center hosts a Senior Prom and a Vintage Valentine Dance. There are also monthly blood pressure checks by a certified Nurse. Free legal aid is available through Georgia Legal Services for seniors.

The Senior Citizens Center is under the supervision of the Senior Center Director and the City Manager. The Senior Advisory Committee makes recommendations to City Council on behalf of the seniors.

## Accomplishments

During the FY09 fiscal year the Senior Director along with the advisory committee has been actively researching a new facility with larger capacity to move into. The new Senior Center has been obtained and will be ready for occupancy by the end of this fiscal year.

## Goals

The goals for next year are to add more activities for the seniors. We also hope to attract more seniors since the new location has more capacity and also has a very scenic landscape that will encourage outdoor activities during pleasant weather.

# St. Marys Public Library

## Overview

In 1821, Archibald Clark headed the newly founded Library Society in St. Marys. After a fire in 1862, the library became a WPA project, receiving funds for a 215 volume collection and a bookmobile. After WPA ended, the St. Marys Women's Club operated and sponsored the library for many years. In 1949, the St. Marys Library became an affiliate library of the Brunswick-Glynn County Regional Library System, now called the Three Rivers Regional Library System. After occupying many different locations, the library's collection of more than 20,000 items was moved to its current location, with plans for renovation in the works. The library's current collection tops 42,000 items-- books in large and regular print, audio books on cassette and CD, videos and DVDs-- and it circulates more than 100,000 items annually.

General information...

The library helps address the desire for self-directed personal growth and development opportunities.

The library promotes reading readiness from infancy, providing services for self-enrichment and for discovering the pleasures of reading and learning.

The library helps to fulfill community residents' appetite for information about popular cultural and social trend and their desire for satisfying recreational experiences.

The library features current, high demand, high-interest materials in a variety of formats for persons of all ages.

The library actively promotes and encourages the use of its collection.

The library actively provides timely, accurate, and useful information for community residents in their pursuit of job-related and personal interests.

The library helps meet the need for information and answers to questions on a broad array of topics related to work, school, and personal life.

The library helps address the need for skills related to finding, evaluating, and using information effectively.

The library addresses the desire of community residents to know and better understand personal or community heritage.

The library offers daily...

Saturday and evening hours

Computer automated state-wide circulation system

Wi-Fi internet access

Notary services

Microfilm reader/printer

Voter registration

Test proctoring

Public meeting room

Copy machines--15 cents per page

Paperback exchange

On-going used book sale

Interlibrary loan

Fax machine--\$1.00 per page, sending and receiving

Access to [GALE Legal forms](#)--NO legal advice

Access to [Price It! Antiques and Collectibles](#) database

Local census records on microfilm (1830-1930)

[Pass the Popcorn Please](#)--ongoing film series

Georgia Special Collection

AR reading lists for all St. Marys schools

In honor of/in memory of program

Lexile Rating information

Annual participant in the National "Big Read" program

Vacation reading programs for adults and children

Three Rivers Regional Library System  
and St. Marys Public Library

# Planning & Building Department

# Planning & Building Department

## Mission

The adopted Mission Statement of the City of St. Marys is as follows:

*“The mission of the City of St. Marys is to provide the most responsive and progressive public services, within the resources provided, so that our citizens can enjoy the best possible quality of life.”*

In order to accomplish this mission, all departments must strive to provide quality dependable service, to treat all citizens fairly and with the utmost respect, to respond to all questions, requests or complaints as soon as possible, to always be fiscally sound, to inform the public of all aspects of city government, to provide infrastructure, public facilities and image necessary to attract and keep residents and business, and to have reasonable fair tax rates and user fees.

## Planning Department

### Overview

Presently, one employee and a director shared with the Building Department perform the planning functions within the planning department. At present, the Planning Department has approximately one staff member for 9,000 residents. This should be sufficient through 2011.

The department is currently comprised of a planning director, assistant planner, and an administrative staff individual shared with the building department. The Planning Department Staff (Planning Director, City Planning Assistant, and Administrative Assistant) is responsible for occupational licenses, city ordinance code enforcement through the services of the City marshal, sign permits, historic preservation, all issues dealing with the zoning and land use of property located within the city boundaries, subdivision of city property, annexation of property, rezoning of property, issuance of special use permits, temporary permits, land disturbing permits, and uses permitted within zoning districts. The planning department oversees the development and submittal of the City Comprehensive Plan and the City Master Plan. Typical duties of the City Marshall include enforcement of all city ordinances such as sign permits,

abandoned vehicles, health and safety issues, investigation of rezoning and annexation requests, subdivision regulation, liquor license monitoring, occupational license maintenance and renewal, customer service and complaint resolution.

The Planning and Zoning Staff are very proactive and research any problem presented to us to provide superior customer service, even when the question is outside our department responsibility.

## **Building Department**

### **Overview**

Presently two inspectors and a director shared with the Planning Department manage the building department requirements. The department shares an administrative assistant with the planning department. Growth in the permit area has been delayed as a result of the World wide economic crisis. Therefore our staffing needs have been minimized to a level consistent with the number of permits issued. In future years, growth may accelerate, requiring additional staff. But, for the moment, the current staff is adequate to accomplish the mission of the Building Department.

The Building Department is responsible for issuing building permits for residential and commercial properties and for completing building inspections on each structure constructed within the city. Inspections start from the preparation of the land to the complete construction of the structure insuring compliance with approved building codes adopted by the State of Georgia. Our duty is to promote the health, welfare and safety of the public. This is done by the proper and timely inspection of structures from the ground up including plumbing, electrical, heating, air conditioning and energy. Inspections are completed according to the established codes adopted by the State of Georgia. We work closely with Engineers, Architects, contractors, developers, and owners to insure contractors meet minimum qualifications to complete the work hired to perform. We are very proactive and research any problem presented to us to provide superior customer service, even when the question is outside our department responsibility.

### **Goals**

During the next year, Mr. Weaver, Building Director, will endeavor to obtain Certified Building Official (CBO) status.

The recurring theme at the present time is to maintain a high level of service with our current staff. We are using this lull in constriction to streamline our procedures and make the two departments more efficient and more responsive to the General Public. In this way we will be better able to quickly and positively react to economic growth as it regains momentum.

This effort will be rewarded if we can manage to grow and welcome new residents to our community and retain our small town attitude and appeal that makes St. Marys uniquely St. Marys. We must adhere to our mission statement in every way possible:

# Cemetery

# Oak Grove Cemetery

## Overview

Oak Grove Cemetery is located at the corner of Bartlett Street and Weed Street. The earliest marked grave is from 1801. A soldier from every War is buried in Oak Grove Cemetery.

The Cemetery is maintained by the City of St. Marys Public Works department. Oak Grove Cemetery lots are sold through the Clerk's office. The Building inspector identifies and marks the lot for burial.

## Goals

Through the combined efforts of the City Clerk and Building Inspector, the Cemetery Association and City's cemetery files will continue to be cataloged to capture lot sales and ownership.

# Economic Development

# Economic Development

## Overview

The Economic Development Department, created in 2003, consists of both the Industrial and Downtown Development Authority. The Economic Development Department is responsible for the development and coordination of economic growth projects in the City of St Marys. It also coordinates, through partnership with the Industrial Development Authority and St Marys Downtown Development Authority, redevelopment of property owned or acquired by the City for the best economic use for the citizens of St Marys.

## Goals & Objectives

The mission of the Development Authority is to support current businesses and encourage new businesses development in St Marys. Preserve and enhance the natural beauty of St Marys. Promote St Marys as a destination of choice.

## Work Plans for 2009-2010

### ORGANIZATION COMMITTEE (DDA Board) – Chair, Craig Root

Walt Natzic – Vice Chair

Tom Monahan – Treasurer

Jim Lomis

Barbara Ryan

Bill Deloughy

Staff: Alyce Thornhill & Renée Coakley

## **1. Ordinances**

- Sign Ordinance Review

### **Design Committee**

- Review existing ordinance
  - Determine current enforcement
  - List of abandoned signs in DDA boundaries
- Design Guidelines

### **Design Committee**

- Planning Department

# Water & Sewer Department

# Water and Sewer

## Overview

The Water and Sewer Departments are responsible for providing potable water to the citizens and businesses of the City and for the collection and processing of wastewater, making it safe to put back into our environment. The day-to-day operations of the Water and Sewer Departments are supervised by the Public Works Director. The overall responsibility of the Water and Sewer Fund rests with the City Manager. The Finance Department provides meter reading, billing, revenue collections, financial reporting and audit services for the Water and Sewer Fund.

The Water & Sewer Departments serve a population base of over 19,500. The Water Department maintains a distribution system of 127 miles of main lines ranging from 2 inches to 12 inches in diameter. There are three field crews (water plants, maintenance, & meter readers).

The water plant crew is responsible for the operation and maintenance of the City's four (4) water plants assuring compliance with EPDs permitting requirements. These plants pump an average of 1.6 million gallons per day (MGD). This crew also helps our customers with complaints of low water pressure, strong odors of chlorine or sulfur, and water leaks.

The maintenance crew performs a variety of functions related to the City's water distribution lines. The crew installs water taps, meters, backflow preventers (BFPs) and fire hydrants. They perform repairs on the City's existing water main lines and services and installs new mains and services. This crew also locates the City's water and sewer lines for the telephone, power, gas, and cable companies prior to them digging to avoid damage to the lines.

The meter readers perform a variety of functions relating to the City's metering system. The crew takes individual meter readings monthly, terminates services as needed and makes minor repairs to water services and meters.

The Sewer Department maintains 129 miles of sewer main lines ranging from 2 inches to 24 inches in diameter. The department consists of wastewater plant crews (plant operators, belt press operators, laborers) and collection system crews (lift stations technicians, operation technicians, camera & vac-con truck operators).

The wastewater plant operators perform a variety of technical functions related to the operation and maintenance of the City's three (3) wastewater treatment plants assuring compliance with EPDs permitting requirements. These plants process an average of 1.6 million gallons daily (MGD).

The belt press operators are responsible for the operation of the City's sludge handling equipment (1 – stationary belt press, 1 – mobile belt press unit, & 1 - centrifuge) and hauling the sludge from the plants to the county landfill.

The laborers are responsible for maintaining the buildings and grounds of the wastewater plants, removing solids from drying beds and sanding the beds. They also assist in other areas as needed.

The collection system crews perform a variety of functions related to the wastewater collection system consisting of seventy (70) sewer lift stations.

The lift station technicians are responsible for inspecting the lift stations, taking readings, and checking alarms daily to ensure they are functioning properly. The crew performs minor maintenance of these stations and reports inoperable stations and maintenance requiring the skills of the operation technicians. They also maintain the grounds of the stations (mowing, weeding, & clearing debris) and assist in other areas when necessary.

The operations technicians are responsible for maintaining a variety of the City's electrical systems not limited to but including lift stations, wastewater plants, water plants and booster stations as well as other city structures and components. This crew also assists in the repair of gravity lines and force mains and they assist citizens with complaints of sewer blockages and odors.

The camera & vac-con truck crew is responsible for the operations of the cleaning and televising equipment. The crew video's sewer lines to determine if there is a problem and to find the location/cause of the problem. The vac-con truck is used to clean sewer lines. They also assist other crews with the repair of sewer lines, smoke testing, lift station cleaning, and hydro-excavating.

The Water and Sewer departments have on-call personnel that are available 24 hours a day 7 days a week to assist our customers with complaints of low water pressure, water and sewer odors, water leaks and sewer blockages.

# Tourism & Orange Hall

## St. Marys Convention and Visitors Bureau

St. Marys CVB is comprised of a full time director, part time staff and ten dependable volunteers. CVB Director's team leader is Roger Weaver and director reports to the CVB board made up of seven people. Responsibilities include maintaining a tourism website, coast website, state website, budgeting welcome center and CVB with Hotel /Motel Tax, hosting groups, booking overnight groups, booking historic tours, maintaining volunteers as well as part time staff, grants, managing the welcome center, managing the day to day of Orange Hall, attending tourism meetings and events, working with media, greeting and welcoming visitors in the welcome center when busy, reports for CVB Board , board minutes, agenda director's report, budget, ad design and layouts for advertising, e-newsletters, purchase orders, bids, brochure design, reports requested by the city, and video updates.

### Accomplishments

- Secured matching grant from the State for \$11,000
- Kept Level 5 Regional Visitor Center Status- \$5000
- Awarded scholarship from Southeast Tourism Society for \$400.00
- Assisted with the grand opening of Cumberland Sound Water Taxi
- Obtained a Volunteer base for tours and extra help in the Welcome Center of ten active participants and more reserve volunteers
- Trolley tours income from end of October- February- \$2,656.00
- Other special historic tours (step on Guide)July-February \$2138.00
- Net of \$1400 from Christmas Tour Fundraiser and \$1400.00 for Historic Preservation Commission
- Created and implemented a Survey to target the tourist visiting St. Marys
- Implemented E-Newsletters Constant Contact to market St. Marys through packages, local events and specials.
- Marketing committee is working on improving traffic to the website through various website enhancements. Adding more information to the new state website monthly.
- Met with John Reyes, President of Visit Jacksonville to market St. Mary as a day trip for Jacksonville locals and visitors. Results St. Marys joined Visit Jacksonville as a Partner which gives the accessibility to network with tourism entities in Northeast Florida.
- Media Coverage- Water Taxi and East Coast Greenway Project interviewed on First Coast News, Times Union, Tribune and Georgian, Brunswick News and

Daytona Packet. Christmas Tour of Homes coverage- Georgia Magazine, Waters Edge Magazine, Brunswick News, Tribune and Georgian and AP out of Fargo North Dakota.

- Hosted Savannah Northeast Florida Workshop on Wheels in January
- Hosted Regional Visitor Information Center Workshop February 25-26. Forty Five attendees came for one to two days. Economic impact from this group was \$11,944.00.

With donations from the State and Georgia Coast Travel Association, Greyfield, Cumberland Princess and registration fees the Convention and Visitors Bureau added \$1200 to budget in residual revenues after expenses.

## Goals

Increase Visitation to St. Marys and Cumberland Island through offering more lodging, activities, shopping, and dining choices.

### Welcome Center Statistics

July 07-Dec. 07 (Visitors-5957) (Phone inquiries-2959) (E-mail inquiries-1137)

July 08-Dec.08 (Visitors- 5273) (Phone inquiries- 3416) (E-mail Inquiries 3,724)

- Decrease in visitation in 08 reflects welcome center closure for approximately three weeks in summer of 08
- Orange Hall Statistics  
July 07-Dec.07 (Visitors -1314) (Tour revenue \$3468.00)  
July 08- Dec.08 (Visitors-1546) (Tour revenue \$5001.00)

# SPLOST V & VI

## **Overview**

Special Purpose Local Option Sales Tax (SPLOST) was enacted by Georgia legislators in 1985. It authorizes a county tax of 1% on items subject to state sales tax. The revenue earned from the tax must be used for specific period and dollar amounts for capital projects. The SPLOST tax must be voted on by residents. SPLOST last for five years and if funds are still needed it must be voted on again.

## **Accomplishments**

SPLOST V has financed many projects within the City including Drainage, Sidewalks, Handicap ramps, Paving, and traffic signalization.

SPLOST VI has financed sewer infrastructure, drainage, paving, and building improvements.

## **Goals**

The City will continue to provide these upgrades to our infrastructure and buildings so we may offer our residents a better quality of life.

# Capital Improvements

## **Overview**

The Capital Improvement Fund was established to support capital projects for various functions and activities within the City. The Capital Improvement Fund for FY2010 contains the funds received from the Theatre group for the construction of a Waterfront theatre or amphitheatre.

## **Accomplishments & Goals**

Plans are underway by the Theatre Group to develop the blue prints for the structure to be built at the waterfront.

# Solid Waste

## Overview

The City provides curbside collection of garbage, brush, and recyclables to residents of St. Marys. The Finance department provides billing, revenue collections, financial reporting and audit services for Solid Waste.

The City requires a one time administration fee for new residents. There is a senior discount available to residents over the age of sixty-five who meet annual household income requirements.

## Accomplishments

The garbage collection service was contracted out in 2008. At this time most problems associated with the transition have been ironed out. One of the surplus garbage trucks was sold to a neighboring city in 2009.

## Goals

There are three garbage trucks remaining at Public Works in the storage area. They were placed on GovDeals last year with no bidders meeting the reserve. We hope to place them again soon when the market is better.

We will continue to offer the best possible quality of service to our residents.

# Aquatic Center

# ST. MARYS AQUATIC CENTER

## OVERVIEW

The St. Marys Aquatic Center opened for business in May of 2002. During the past 8 years, we have seen an increase in every aspect of our business; from daily attendance, season passes, group and Birthday party reservations, as well as all areas of revenues. The following graph shows the revenue sources at the Aquatic Center and their increases over the past 5 seasons. The Aquatic Center currently employees 1 full time person and 35-40 seasonal positions.

Our focus is to provide a safe recreational environment for the residents of St. Marys and surrounding areas and to provide quality swimming instruction for participants.

## Accomplishments

Over the past 8 years, the Aquatic Center has had to adapt to larger crowds and more demand for services. We have added the following amenities for our guests use and comfort while they are here: 3 shade pavilions, locker rentals, a stand alone Gift Shop, added concession menu items, additional tables, chairs and umbrellas, extra Birthday party services, season pass holder perks, expanded park hours, expanded telephone reservation system, and a user friendly web-site.

Other accomplishments that the guest does not see include: enhanced training programs for regular and Supervisory staff, updated computer equipment, repair and maintenance of all pool equipment and structures, credit card capability, and improved staff recruitment and hiring practices.

## Responsibilities

The Aquatic Center has a responsibility to the members and guests to provide a safe swimming and recreational experience for all users. This includes safety of the water environment (following water quality standards and enforcing safety rules), safety of the park (including injury prevention and management for employees and guests), and food safety in our concession operations. The Aquatic Center must pass several inspections in order to operate, both from the local Environmental Health Department and the state Department of Labor. Lifeguards must hold current certifications in Lifeguarding as well as First Aid and CPR with the addition of an AED certification (automatic external defibrillator). Our Guest Services staff is trained in the areas of basic First Aid and Food Safety as well as customer service. To satisfy Health Department codes, one employee must be certified as a Certified Pool Operator and Food Safety Manager.

All Aquatic Center employees are trained to respond to guest complaints, injuries, as well as emergencies. After 7 complete seasons, the Aquatic Center has an excellent safety record noting minimal guest injuries and complaints.

**Goals**

We are quickly running out of space! In order to serve more guests, the park will need to expand. Ideas include more slides, more seating areas, parking, and additional office space. Our park capacity is listed at 800 people at any given time; and has come close during the past two seasons.

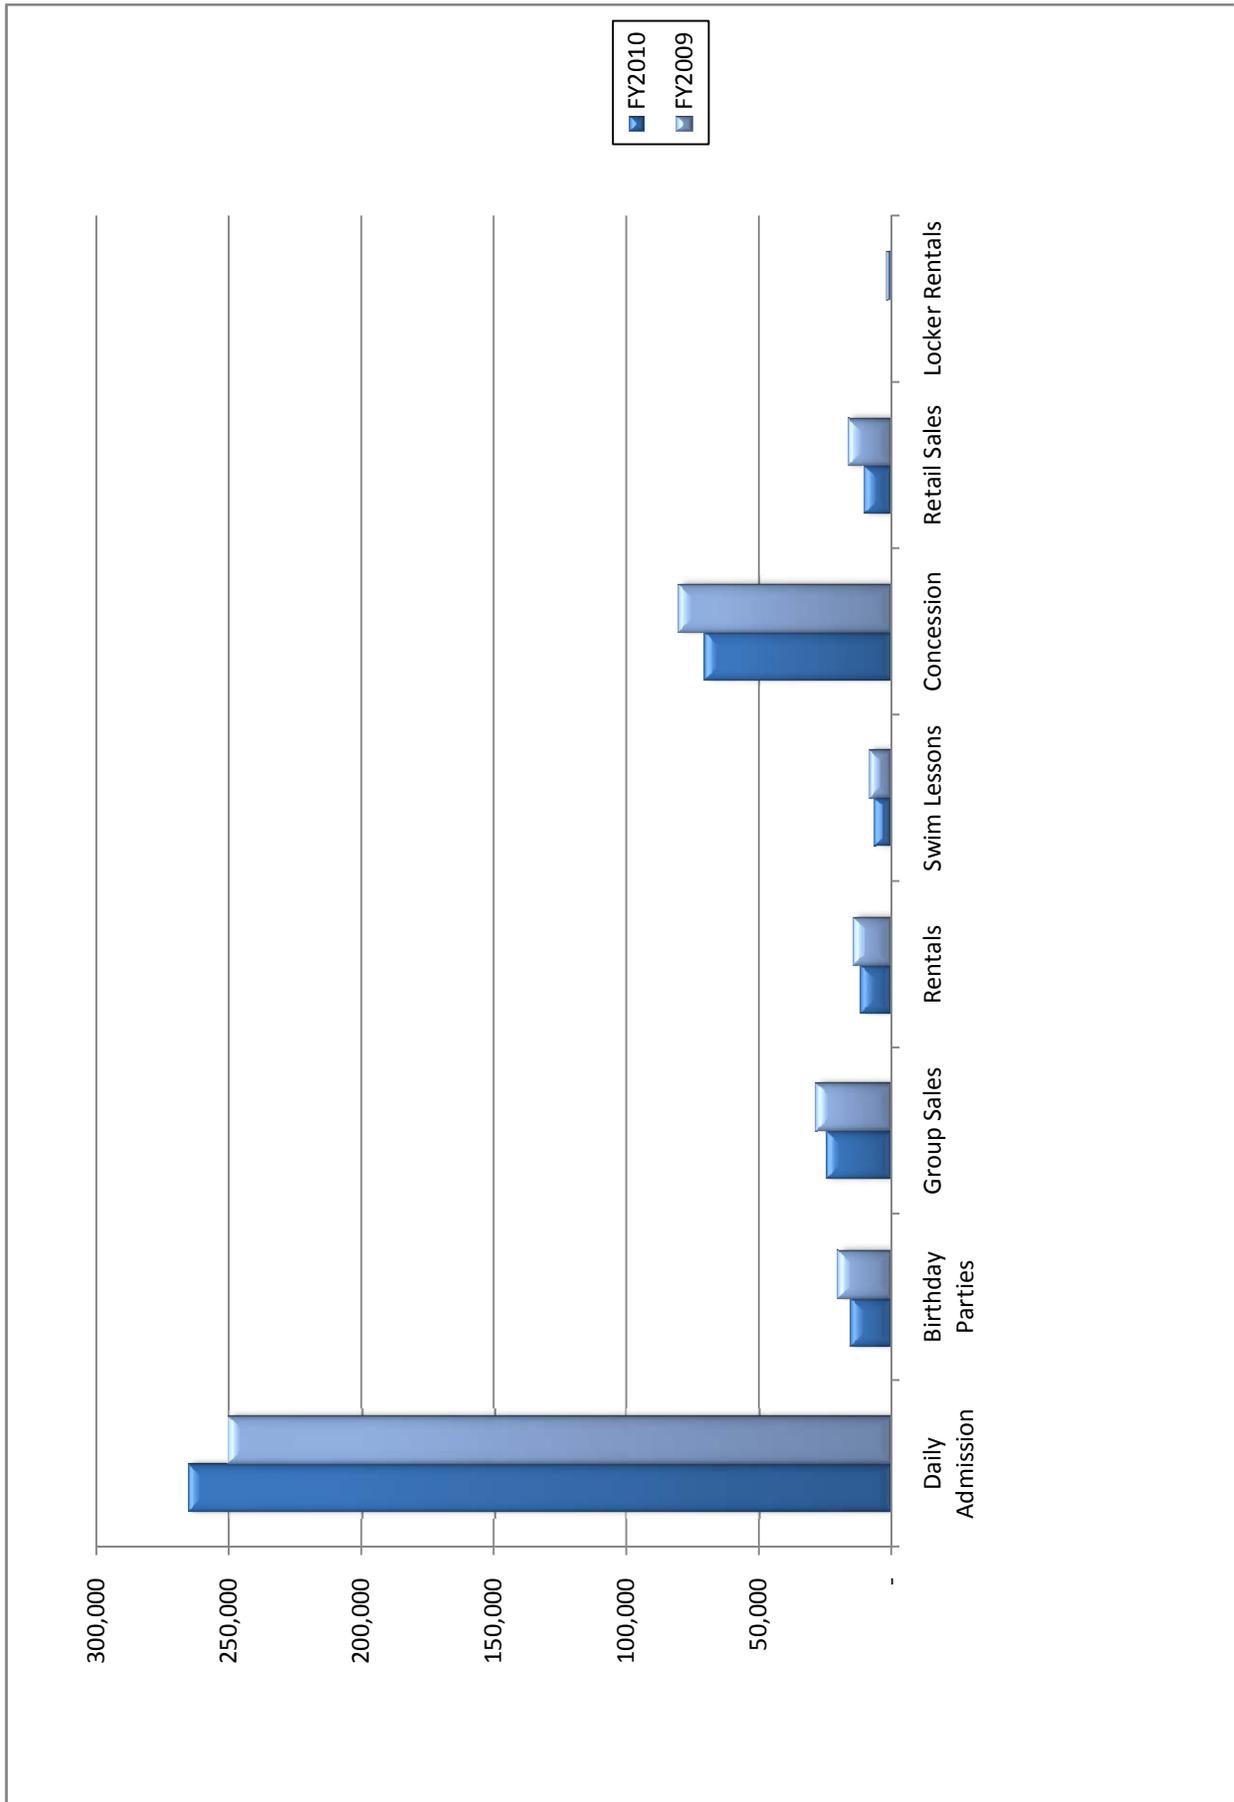

Over the years, we have received compliments for the cleanliness of our park and the positive staff members we have. We will continue to upgrade our hiring and training programs to find the best employees for our staff.

All of our employees are concerned with guest safety whether they are Lifeguards actively watching swimmers or Guest Services staff serving food, cleaning the park, or hosting a Birthday party. We will continue to emphasize this in our training programs.

We will make a concerted effort to manage our employee hours as well as our operating costs without cutting back on services to our customers.
