

Hello Summer!

What to do with those old paper-files, flat-screen TVs, mystery wires, computers and laptops, electric hedge-trimmers, vacuum cleaner, gadgets, cell phones, and other broken or outdated electronic "stuff"?

Hold on to it all and then bring it to the next St. Marys EarthKeepers/Tribune & Georgian E-Scrap Fair!

When: Saturday, May 16, from 10 am to 4 pm.

Where: St. Marys Aquatic Park (Herb Bauer Dr.)

What: All ELECTRONICS. If it has a plug we accept it – *with the exception of old tube televisions*. Don't forget to include anything that requires batteries, even the old batteries themselves.

Sentry Data (NAID AAA Certified) will dispose of your PAPER FILES securely. And don't worry about the paper clips, staples, binder clips, etc. – we'll take care of that.

(Feel free to bring along those piles of MAGAZINES that have been gathering dust in your home and office.)

Please note: We will not be collecting paint and household hazardous materials.

A suggested \$5 donation to the St. Marys EarthKeepers would be greatly appreciated.
