NEW CONSTRUCTION PACKET BUILDING FROM GROUND UP

Please take care to ensure all information for each checkbox below is sufficiently provided. The city will not accept incomplete applications.

☐ Completed all applications for building, electrical, low voltage, mechanical, and plumbing

☐ Completed application

☐ Site plans/Survey/Plats by GA surveyor (2 sets)

☐ Foundation included with plans (2) sets (including details of elevations and walls)

☐ Floor plan, electrical plan, plumbing plan, mechanical plan, low voltage plan

☐ Contractor's license provided

☐ Occupational tax certificate provided

☐ Occupational tax license for all trades

☐ Signed contract included between home owner & contractor

Please note all information contained in this packet may not be applicable to your project. Should you have any questions, please contact Cheyanne Heron at 912-510-4032 or cheron@stmarysga.gov
Information and applications regarding permitting for residential and commercial projects:

Residential and commercial projects
Building
Electrical
Plumbing
Mechanical
Low voltage

Please not all information contained in this packet may not be applicable to your project. Should you have any questions please contact Cheyanne Heron at 912-510-4032 or cheron@stmarysga.gov
Authorized Permit Agent Form

State of Georgia licensing board for residential and general contractors

License verification by permitting office should be verified by visiting www.sos.ga.gov and clicking on search for a professional license.

Licensed contractor: _____ Individual and/or _____ Qualifying agent

Name of licensed individual: __________________________________________
(please attach a copy of individual or company license reflecting company and qualifying agent license number)

License number of individual or qualified agent: _________________________

Name of licensed company (if applicable): _______________________________

I, ________________________________________, hereby designate _________________________
(licensed individual or qualifying agent)
to apply for and obtain the permit(s) for the project at: ____________________________
Street address

________________________  __________________________  __________  __________
Apt/suite #              City                          state                 zip code

Lot number: ______

I, swear the undersigned, being the contractor as either an individual or a qualifying agent,
do hereby affirm and swear, under oath, that all information on this form and on accompanying documents are true and correct.

HOMEOWNER NEW CONSTRUCTION, ADDITION, REMODEL, AND RENOVATION PERMIT

AFFIDAVIT

PLEASE COMPLETE ALL INFORMATION IN BLACK INK OR TYPE. UPON SUBMISSION THIS AFFIDAVIT BECOMES PART OF THE ACTUAL PERMIT. DO NOT SIGN THIS AFFIDAVIT UNLESS IN THE PRESENCE OF A NOTARY.

STATE OF GEORGIA

COUNTY OF CAMDEN

CITY OF ST. MARYS

PERMIT NUMBER:

DATE RECEIVED:

PROPERTY ADDRESS:__________________________________________ MAP/PARCEL NUMBER:____________________________________

The undersigned hereby applies for special consideration as a property owner desiring to construct or alter his/her personal residence. In making this request for a "homeowner" permit, the undersigned states the following to be true:

- Property described in permit application is currently owned by the applicant.
- Applicant resides/will reside in completed structure and does not plan to offer same for sale or rent for a period of two (2) years after receiving a certificate of occupancy (applicable to new construction only) per O.C.G.A. section 43-41-17(C)(2)(h)
- Applicant agrees (if applicable) accessory structure will be for its permitted use and not for a business or residence.
- Applicant will serve as the general contractor and accept inherent responsibilities for the work authorized by the issued permit.
- Applicant agrees to hire state of Georgia "licensed Contractors" for all work that is further sub-contracted for electrical, mechanical, plumbing and low voltage and agrees permits will be obtained prior to work beginning.
- Applicant agrees to perform work in accordance with all applicable codes and strictly adhere to the inspection schedule. Undersigned acknowledges that inspections must be performed in an established sequence and that work done in violation of the codes must be corrected or may be ordered removed.

Undersigned applicant acknowledges that he/she is aware that a permit issued under the provisions of the code may be revoked for false statements or misrepresentation as the material fact in the application on which the permit was based.

Undersigned applicant further acknowledges he/she is aware that any knowingly false statements made in the permit application will subject said applicant to possible prosecution. Georgia criminal code, section 26-2402 (false swearing) calls for a possible fine of not more than a $1000.00 or imprisonment for not less than one (1) nor more than five (5) years, or both.

CITY OF ST. MARYS REQUIREMENTS FOR
RESIDENTIAL AND COMMERCIAL CONSTRUCTION
Updated April 2018

Building Codes In Use:
1. 2012 International Building Code
2. 2012 International Residential Building Code
3. 1999 SSTD 10-99, Standard for Hurricane Resistant Residential Construction
4. 2017 NFPA 70, National Electrical Code
5. 2012 International Plumbing Code
6. 2012 International Mechanical Code
7. 2012 International Fire Code
12. GA Fire Marshal's Rules & Regulations
14. 2010 ADA Standards for Accessible Design
15. GA State Supplements and Amendments to the above codes

Design Requirements:
1. All structures must be designed and built to withstand 120 MPH (3 second gust) winds, Exposure Category “B”, minimum.
2. Finished floor elevation of the structure must be a minimum of 16-inches above the high point of the adjacent road.
3. Maximum structure height limitation of the City of St. Marys, Code of Ordinances, Section 110, must be complied with.
4. Marsh line, for property located on a salt water marsh, must be established by GA DNR within a year of starting any construction on the property.
5. No construction can take place within 25 feet of the normal water’s edge of a lake, pond, or other body of water considered to be state waters. Building and Public Works official will determine wrestling buffer boundaries when applicable.
6. All structures for human habitation, located in a flood zone, must be constructed a minimum of 24” above the base flood elevation in which it is located. A “Post Elevation Certificate” will be required prior to the issuance of the Certificate of Occupancy. The elevation certificate must be prepared by a registered professional Georgia surveyor.
7. Owner/Contractor will be required to submit a lot inspection report prepared by a registered professional Georgia surveyor for any project that has footers, piers, or a slab before an inspection will be scheduled.
ITEMS REQUIRED FOR PERMIT REVIEW/APPROVAL FOR BUILDING/ELECTRICAL/LOW VOLTAGE/MECHANICAL/PLUMBING APPLICATIONS, SITE PLANS & PLANS WITH THE CITY OF ST. MARYS

Updated April 2018

Site Plan: Prepared by a GA Registered Surveyor with the following information:
1. Property dimensions and orientation
2. Location and description of property boundary markers
3. Proposed construction located on the property, including driveway
4. Highways or streets adjacent to the property, including elevation(s)
5. Any and all easements
6. Building restriction lines
7. Wetlands, ponds, or lakes on or adjacent to the property
8. Elevations of property and flood hazard zone
9. Subdivision name and lot number, if any
10. Location of water and sewer connection and stub out or well and septic tank

Foundation Plan and Details, Elevation Details, Wall Details (Interior and Exterior)

Floor Plan:
1. Finished floor elevation
2. Window/door location and size
3. Room/area designation/use

Electrical Plan:
1. Outlets
2. Type of service and diagram
3. Lights
4. Wiring diagram
5. Location of disconnect panels
6. Contract cost listed on permit application

Plumbing Plan:
1. Fixture layout
2. Drain layout and size
3. Water pipe layout and size
4. Size of water meter
5. Contract cost listed on permit application

Mechanical Plan:
1. Size of A/C unit
2. Type of heat
3. Duct layout (manual "D")
4. If a restaurant:
   a. Hood with fire suppression system
   b. Equipment layout
4. Calculations for sizing of heating/cooling units (manual "J")
5. Contract cost listed on permit application
Complete the building/electrical/low voltage/mechanical/plumbing permit applications, the authorized permit agent form (if applicable), homeowner affidavit (if applicable) and submit with 2 sets of plans (if commercial 3 sets) and 2 site plans (if commercial 3).

You will need to include a copy of the State of Georgia professional contractor's license for the following:
- General contractor
- Mechanical contractor
- Electrical contractor
- Low voltage contractor
- Plumbing contractor

You will need to include a copy of a business license aka an occupational tax registration certificate for a city or county within the State of Georgia. If you do not have one you will need to apply for one with the City of St. Marys.

You will need to submit the copy or apply for one for the following:
- General contractor
- Mechanical contractor
- Electrical contractor
- Low voltage contractor
- Plumbing contractor

You will need to submit a copy of the signed contract between you and your client. Note: If a spec home you will need to provide a breakdown of how you arrived at the actual contract cost.

The General Contractor will be required to have the mechanical, electrical, low voltage and plumbing permit applications and all required documentation submitted with his information. If any of the documentation or permit applications are not included this will delay the review/approval process.

All information must be submitted no later than 10am Tuesday. The information will be reviewed Wednesday morning. If approved, you will be emailed a fee schedule within 2-3 business days with any applicable notations. If the information submitted is denied, you will receive an email explaining why within 2-3 business days.

Note: Commercial projects will require a longer review process if there was not a “preliminary review” of the plans. Commercial preliminary plan review can take up to 4 weeks.

When permits are issued you will receive a copy of the permit, a site inspection sheet, and a set of plans. All of this information must be posted on site in a doc box.
CITY OF ST. MARYS REQUIREMENTS FOR
RESIDENTIAL AND COMMERCIAL INSPECTIONS
Updated January 2015

1. Building:
   a. Setbacks
   b. Sediment Control
   c. Pier/Footing/Slab
   d. Bond Beam/CMU Fill
   e. Termite Treatment (record purpose only)
   f. Wall and Roof Sheeting Nail Off
   g. Window and Exterior Door Installation
   h. Framing Prior to Cover Up (includes structural, electrical, plumbing and HVAC rough in)
   i. Insulation
   j. Gas Vent
   k. Fire and Life Safety (commercial projects)
   l. Final (Certificate of Occupancy)

2. Plumbing:
   a. Pre-Slab
   b. Rough In Prior to Cover Up
   c. Gas Piping Prior to Cover Up
   d. Final (Certificate of Occupancy)

3. Electrical
   a. Temporary Pole
   b. Rough In Prior to Cover Up
   c. Grounding
   d. Pre-Final
   e. Final (Certificate of Occupancy)

4. HVAC
   a. Rough In Prior to Cover Up
   b. Final (Certificate of Occupancy)

5. Low Voltage
   a. Rough In Prior to Cover Up
   b. Final (Certificate of Occupancy)

6. Swimming Pool/Enclosure
   a. Shell
   b. Grounding
   c. Piping
   d. Cool Deck
   e. Final (Certificate of Occupancy)
ARTICLE III. - SOIL EROSION, SEDIMENTATION AND POLLUTION CONTROL

FOOTNOTE(S):

--- (4) ---

State Law reference—Erosion and Sedimentation Act of 1975, O.C.G.A. § 12-7-1 et seq.

Sec. 46-92. - Title.

This article will be known as "City of St. Marys Soil Erosion, Sedimentation and Pollution Control Ordinance."

(Ord. of 4-4-11)

Sec. 46-93. - Definitions.

The following definitions shall apply in the interpretation and enforcement of this article, unless otherwise specifically stated:

Best management practices (BMPs): These include sound conservation and engineering practices to prevent and minimize erosion and resultant sedimentation, which are consistent with, and no less stringent than, those practices contained in the "Manual for Erosion and Sediment Control in Georgia" published by the commission as of January 1 of the year in which the land-disturbing activity was permitted.

Board: The board of natural resources.

Buffer: The area of land immediately adjacent to the banks of state waters in its natural state of vegetation, which facilitates the protection of water quality and aquatic habitat.

Certified personnel: A person who has successfully completed the appropriate certification course approved by the Georgia Soil and Water Conservation Commission.

CPESC: Certified professional in erosion and sediment control with current certification by Certified Profession in Erosion and Sediment Control Inc., a corporation registered in North Carolina, which is also referred to as CPESC or CPESC, Inc.
Cut: A portion of land surface or area from which earth has been removed or will be removed by excavation; the depth below original ground surface to the excavated surface. Also known as excavation.

**Department:** The Georgia Department of Natural Resources (DNR).

**Design professional:** A professional licensed by the State of Georgia in the field of: Engineering, architecture, landscape architecture, forestry, geology, or land surveying; or a person that is a certified professional in erosion and sediment control (CPESC) with a current certification by Certified Professional in Erosion and Sediment Control, Inc.

**Director:** The director of the environmental protection division or an authorized representative.

**District:** The Satilla River Soil and Water Conservation District.

**Division:** The environmental protection division (EPD) of the department of natural resources.

**Drainage structure:** A device composed of a virtually nonerodible material such as concrete, steel, plastic or other such material that conveys water from one place to another by intercepting the flow and carrying it to a release point for stormwater management, drainage control, or flood control purposes.

**Erosion:** The process by which land surface is worn away by the action of wind, water, ice or gravity.

**Erosion, sedimentation and pollution control plan:** A plan required by the Erosion and Sedimentation Act, O.C.G.A. ch. 12-7, that includes, as a minimum protections at least as stringent as the state general permit, best management practices, and requirements in subsection 46-95(c) of this article.

**Fill:** A portion of land surface to which soil or other solid material has been added; the depth above the original ground surface or an excavation.

**Final stabilization:** All soil disturbing activities at the site have been completed, and that for unpaved areas and areas not covered by permanent structures and areas located outside the waste disposal limits of a landfill cell that has been certified by EPD for waste disposal, 100 percent of the soil surface is uniformly covered in permanent vegetation with a density of 70 percent or greater, or equivalent permanent stabilization measures (such as the use of rip rap, gabions, permanent mulches or geotextiles) have been used. Permanent vegetation shall consist of: Planted trees, shrubs, perennial vines; a crop of perennial vegetation appropriate for the time of year and region; or a crop of annual vegetation and a seeding of target crop perennials appropriate for the region. Final stabilization applies to each phase of construction.

**Finished grade:** The final elevation and contour of the ground after cutting or filling and conforming to the proposed design.

**Grading:** Altering the shape of ground surfaces to a predetermined condition; this includes stripping, cutting, filling, stockpiling and shaping or any combination thereof and shall include the land in its cut or filled condition.
Sec. 46-94 - Exemptions.

This article shall apply to any land-disturbing activity undertaken by any person on any land except for the following:

(1) Surface mining, as the same is defined in O.C.G.A. § 12-4-72, the "Georgia Surface Mining Act of 1968";

(2) Granite quarrying and land clearing for such quarrying;

(3) Such minor land-disturbing activities as home gardens and individual home landscaping, repairs, maintenance work, fences, and other related activities which result in minor soil erosion;

(4) The construction of single-family residences, when such construction disturbs less than one acre and is not a part of a larger common plan of development or sale with a planned disturbance of equal to or greater than one acre and not otherwise exempted under this subsection; provided, however, that construction of any such residence shall conform to the minimum requirements as set forth in O.C.G.A. § 12-7-6 and this subsection. For single-family residence construction covered by the provisions of this subsection, there shall be a buffer zone between the residence and any state waters classified as trout streams pursuant to Article 2 of Chapter 5 of the Georgia Water Quality Control Act. In any such buffer zone, no land-disturbing activity shall be constructed between the residence and the point where vegetation has been wrested by normal stream flow or wave action from the banks of the trout waters. For primary trout waters, the buffer zone shall be at least 50 horizontal feet, and no variance to a smaller buffer shall be granted. For secondary trout waters, the buffer zone shall be at least 50 horizontal feet, but the director may grant variances to no less than 25 feet. Regardless of whether a trout stream is primary or secondary, for first order trout waters, which are streams into which no other streams flow except for springs, the buffer shall be at least 25 horizontal feet, and no variance to a smaller buffer shall be granted. The minimum requirements of O.C.G.A. § 12-7-6(b) and the buffer zones provided by this subsection shall be enforced by the local issuing authority;

(5) Agricultural operations as defined in O.C.G.A. § 1-3-3, "definitions", to include raising, harvesting or storing of products of the field or orchard; feeding, breeding or managing livestock or poultry; producing or storing feed for use in the production of livestock, including but not limited to, cattle, calves, swine, hogs, goats, sheep, and rabbits or for use in the production of poultry, including but not limited to, chickens, hens and turkeys; producing plants, trees, fowl, or animals; the production of aquaculture, horticultural, dairy, livestock, poultry, eggs and apianic products; farm buildings and farm ponds;

(6) Forestry land management practices, including harvesting; provided, however, that when such exempt forestry practices cause or result in land-disturbing or other activities otherwise prohibited in a buffer, as established in subsections 46-95(c)(15) and (c)(16) of this article, no other land-
Fee Schedule for Building/Electrical/Mechanical/Plumbing/Low Voltage/Demolition Permits

Adopted in Legal Assembly September 16, 2013

Building Permit – Permit fee is ½ of 1% of the “actual contract cost” of the general construction work including the trades, minimum $50. You will be required to submit a copy of the contract with the Building Permit Application. $50 administrative fee in addition to permit fee. NOTE: Homeowner’s applying for a new construction building permit the fees will be based on material and labor costs for the general construction and all trades.

Electrical Permit – Permit fee is 2% of the “actual contract cost” of the electrical work with a minimum of $50. You will be required to submit a copy of the contract with the Electrical Permit Application. $50 administrative fee in addition to permit fee.

Low Voltage Permit – Permit fee is 2% of the “actual contract cost” of the low voltage work with a minimum of $50. You will be required to submit a copy of the contract with the Low Voltage Permit Application. $50 administrative fee in addition to permit fee.

Mechanical Permit – Permit fee is 2% of the “actual contract cost” of the mechanical work with a minimum of $50. You will be required to submit a copy of the contract with the Mechanical Permit Application. $50 administrative fee in addition to permit fee.

Plumbing Permit – Permit fee is 2% of the “actual contract cost” of the plumbing work with a minimum of $50. You will be required to submit a copy of the contract with the Plumbing Permit Application. $50 administrative fee in addition to permit fee.

Note: Fee for replacing an existing hot water heater will be an administrative fee of $50 only.

Demolition Permit – Permit fee $100.00 regardless of structure size or materials

Re-Establishing Disconnected Electrical Service - $35.00 permit fee, no additional administrative fee

Re-Inspection Fee - $100.00 per re-Inspection. Fee to be paid prior to re-Inspection.

AID TO CONSTRUCTION FEE
Revised April 2018

Section 98-57 City Ordinance for Construction Fee.

(a) In order to connect to the City of St. Marys water and/or wastewater utility system, all residential, commercial, institutional, industrial or any other structure requiring water and/or wastewater utility services, shall pay an aid-to-construction fee in addition to any fees required by ordinance prior to connecting to the city water and/or wastewater system.

(b) The aid-to-construction fee will be based upon improvements needed for the water or wastewater infrastructure and construction or expansion of the water or wastewater treatment facilities serving the city. The city currently has two wastewater treatment facilities. The current wastewater treatment plants are known as the Point Peter Plant and the Scrubby Bluff Plant. Each aid-to-construction fee will be based on the expansion or construction needed for any and all improvements or expansions of the water and wastewater plants serving the city. These fees will only be used for the improvement or expansion of the water and wastewater treatment facilities located within the city.

(c) The aid-to-construction fee for commercial subdivisions and/or structures, and residential subdivisions and/or structures shall be calculated based on the estimated average daily water consumption of each type of structure or unit as outlined in Table 98-57.1, multiplied by the estimated construction cost per gallon, as listed in the fee ordinance, then multiplied by the number of units. The estimated aid-to-construction cost per gallon shall increase May 1 of each succeeding year, beginning in May 2010, at a rate of five percent. However on April 17, 2017 city council placed a freeze on this increase for 1 year. The current rate is $16.47 effective through April 30, 2018. If the proposed use is not included in Table 98-57.1, then the daily average water consumption rate shall be determined by the City Manager and/or their designee.

Owner/Developer of any structure shall have the option of providing an Earthcraft or LEED (Leadership in Energy and Environmental Design) certified facility that may modify the daily average water consumption rate as listed in Table 98-57.1. The aid-to-construction fee shall be the lower of the figures derived from using either figures from 98-57.1 or the LEED or Earthcraft certified figures. The City will only accept certified LEED or Earthcraft figures from a current Georgia registered professional engineer or current Georgia registered architect.

For example: for a 2011 development with 50 units of one bedroom apartments the fee would be GPD (Table 98-57.1) X Cost Per Gallon X Unit Total = Aid-To-Construction Fee or 150 X $12.58 X 50 = $94,350.00 would be the aid-to-construction fee.

(d) Aid-to-construction fees for commercial or residential projects that do not require subdivision review and approval shall be paid with submittal of a request for a building permit. Aid-to-construction fees for commercial or residential subdivisions shall be paid prior to the receipt of a building permit for any structure.
(e) Additions and renovations made to existing structures shall pay an aid-to-construction fee based on the number of fixtures to be added. The fee shall be calculated based on 10 units per fixture and then multiplied by the current estimated construction cost per gallon.

Earthcraft and LEED certification may also be used for existing structures. The relocation of one or more fixtures within the same existing building envelope will not require an aid-to-construction fee.

Note: See next page for Table 98-57.1
